

## Recommends \$55,000 Appropriation for New TB Hospital For 1933

Amount Would Be Used to Maintain and Operate New Building During Year—Other Matters Before Supervisors.

An appropriation of \$55,000 was recommended by the committee on Tuberculosis Hospital and Laboratory for support, maintenance and operation of the tuberculosis hospital for the year 1933 when that committee reported to the board of supervisors Thursday evening. The same committee to which the matter of an elevator was referred, reported that the installation of an elevator was recommended and that the contract be awarded to the Otis Elevator Company for the sum of \$5,000 and that the cost of the elevator be paid out of the income from pay patients at the hospital during the first year of its operation and that a bronze tablet be purchased from Al King for the sum of \$162.50 to be installed in a suitable place at the hospital. The committee further recommended that any balance remaining in the pay patient fund after these expenditures be turned over to the county treasurer to be placed in the maintenance fund of the hospital. Bills amounting to \$802.94 were audited by the committee and the committee recommended that such sum be allowed.

The committee on Tuberculosis Hospital and Laboratory is Supervisors Davis, Van Wagenen, Stanbrough and Feeney. Later in the session Supervisor Davis offered a resolution and moved its adoption that the report of the committee be adopted and that there be assessed and levied on the county the sum of \$55,000 for operation and maintenance of the tuberculosis hospital for 1933 and that \$802.94 be raised to pay bills. The resolution also authorized the installation of an elevator as recommended by the committee in its report. Over under the rule.

### Reduce Requests

Communications were received from the Farm Bureau, Home Bureau and 4-H Club or Junior Extension Board stating that since they submitted their request for appropriations for 1933 their boards of directors had decided to follow the county's lead and reduce salaries in 1933 10 per cent and they submitted supplemental requests for appropriations. The original requests were lower than in previous years and the appropriations now asked are:

Farm Bureau, \$3,065, or \$435 less than originally asked.

Home Bureau, \$2,660, or \$340 less than originally asked.

Junior Extension Bureau, \$2,500, this is \$1,000 less than last year.

The Accredited Herd Association put in an amended request at a previous session asking for \$3,600 instead of \$4,000.

The communications were received and referred to committee on appropriations.

On motion of Supervisor Elsworth of Esopus a refund of \$44.13 was voted to Kingston Dry Dock and Construction Company for an error on assessment roll of town. The property of Leroy G. Mowell was doubly assessed in 1930 and the Dry Dock Company bid in the property at the tax sale. The tax had already been paid on the Mowell property. The refund will be charged back against the town and the double assessment stricken off the assessment books.

Similar action was taken on resolution of Supervisor Lamoureux of Saugerties in relation to the property of Wesley Martin which is on the 1932 tax sale list. This is a double assessment of the property of Sylvester Martin on which the tax has been paid.

### County to Do Work

A communication was received from Maj. Gen. Franklin D. Ward, the adjutant general, stating that the grading of army grounds, installation of drainage, sidewalks, curbing, etc., was a charge against the county and that the state had about completed a new army here and the latter stated that the county of Ulster had signified its desire to have the work done locally by the county superintendent of highways. This was satisfactory to the state with the work being done according to plans and specifications approved by the state. Supervisor Lamoureux of Saugerties offered a resolution that the county superintendent be authorized to do the work and that the sum of \$26,000 be raised on the county to do the work. Over under the rule.

The third reading of the bill to amend the law governing the payment of \$1 for all fox bounties was had and the bill was adopted. The new bill will become effective on January 1, 1933.

A communication was received from C. J. Heiselman, chairman of the committee of Kingston Post No. 159, American Legion, petitioning the board of supervisors to transfer to the city of Kingston without cost the old army building which will be vacated about January 1, 1933, when the new army will be put in to use. The communication stated that if the board acted favorably on the resolution a similar one would be placed before the common council. Under the resolution the county would need to the city the property with the understanding that the city and maintained by the city to be used for public affairs and that the county would have access to the building for all time free. The resolution stated that the army building on Broadway was in the center

## Expect England and France to Pay Debts To U. S. on Thursday

(By The Associated Press)

Developments in Europe indicate that both England and France will pay the money they owe the United States next Thursday.

There was no flat statement from an official quarter either in London or Paris that this decision has been reached, but in both capitals the cabinets gave their attention to evolving the most practical method of payment.

An official statement in London said that this matter will be considered at a cabinet meeting early next week when Prime Minister MacDonald comes back from the disarmament meeting at Geneva.

In Paris the minister of finance advised the Foreign Affairs Committee and the Finance Committee of the Chamber of Deputies that the government is disposed to pay with the understanding that this will be the last payment, pending reconsideration of the entire debt structure. The French premier must now go before the Chamber of Deputies for approval of this course, and it was expected that he would be upheld.

When the liner Bremen sailed from Cherbourg there was a ton of gold aboard for delivery in New York. Presumably this was a private shipment, the shipper having taken advantage of the rise in the price of the dollar earlier this week.

## England and France Ordered to Pay Debts

Washington, Dec. 9 (AP).—A congress resolute in its determination that Europe shall pay looked to Great Britain today for what that nation might propose before writing a willingness to accept any new form of war debt payments as suggested by Secretary Stimson.

In advising the British that December 15 installments must be met, Stimson said he was "confident" that congress "would be willing to consider any reasonable suggestion" from that government which would make it easier to remit the \$95,550,000 due then.

Soon after the United States note to Great Britain was made public last night, the secretary of state handed to Ambassador Paul Claudel of France this government's reply to the second French appeal for a moratorium extension.

While its contents were not made public, it was taken for granted that the French also were asked to pay up, but whether that communication contained any of the payment suggestions in the British note was problematical in view of different circumstances surrounding the French financial position.

## Potter President Of Ellenville

At a brief meeting of the board of trustees of the village of Ellenville, the resignation of Frank J. Potter as one of the trustees was accepted, and he was elected president of the village to fill the vacancy caused by the death of Peter Beilman on Saturday last.

Mr. Potter began his present term as a trustee of the village in 1931, when he was named to fill the vacancy caused by the resignation of Mr. Beilman, who at that time was elected president of the village. Previous to that time he had served altogether a total of 15 years as village trustee and for a year as acting president.

The new president is well known in Ulster county, having served for 25 years as a director of the Ulster County Agricultural Society, for 20 years as its president. Mr. Potter retired from active business life in 1929, having for 44 years been engaged in mercantile business in Ellenville.

## Bonus Legislation Studied By Congress

Washington, Dec. 9 (AP).—Fortified behind a plea of veterans' organizations for harmonious cooperation, a joint congressional committee today launched hearings to ascertain what, if any, changes and economies it shall urge in legislation affecting former soldiers.

Under the leadership of Representative McDuffie (D., Ala.), the group sought first the attitude of Spanish war veterans, planning then to see what recommendations were forthcoming from Frank T. Hines, veterans' administrator.

Suggestions of President Hoover for slashing \$127,000,000 yearly from the billion America pays her veterans will be searched into by the committee of five house members and five senators, before its report is made.

Baptist Food Sale. Circle No. 1 of the Albany Avenue Baptist Church will hold a food sale at the L. B. Van Wagenen store, Wall street.

## Body Found to Be That of R. Solian

Coroner W. N. Conner states that positive identification of the body found November 26 not far from the southern end of the bridge over the Rondout creek and near the road leading to Connelly, has been made by a brother and other relatives living in Cementon. The identification was made through pictures taken of the dead man and the clothing worn when found.

The body, that of Roman Solian, a former resident of Cementon, was buried in the county cemetery at New Paltz. It was to be disinterred today and turned over to Keenan & Son of Saugerties. Following funeral services at St. Mary's Church Cementon, Saturday, burial will be in St. Patrick's cemetery, Catskill.

An autopsy was performed by Drs. Jacobson and LeFever, following the discovery of Solian's body and an analysis was made to discover if death had been caused by poison. The District Attorney's office states that the investigation showed that death was due to natural causes.

Solian had been a visitor at the home of his brother at Cementon around Thanksgiving time. He had acted rather queerly and was last seen by his brother when he awakened him at 3 o'clock in the morning and stated that he was leaving. Before coming to his brother's home he had been for some time in a New York hospital for treatment.

It is stated that the deceased man left an estate consisting of several thousand dollars on deposit in Catskill banks.

### LEAGUE REFERS ISSUE TO CONCILIATION GROUP

Geneva, Switzerland, Dec. 9 (AP).—The League of Nations assembly, closing an eventful debate on the Manchurian situation, voted today to refer that issue to the conciliation committee of fifteen with a request that the committee report as soon as possible on proposals by the assembly for settlement.

The Lytton report, the record of the discussions in the assembly, and all pertinent documents were passed on to the committee without comment, and thus the clash over a resolution by four small powers condemning Japan's Manchurian policy was avoided.

This procedure was regarded as a success for Japan and for a policy of conciliation with the support of the big powers.

Among the several proposals referred to the committee was that for inviting the United States and Soviet Russia to participate in the work of conciliation.

### FINED \$5 FOR FAILING TO OBEY COMMANDS OF OFFICER

Harold Jones of 96 Broadway, employed as a driver of one of the trucks of Van Etten & Hogan, was arrested Thursday afternoon by Officer Kinch on two charges, the first for double parking on John street, holding up traffic, and the other for failing to obey his command when he asked Jones to drive the truck around the block. Judge Culliton today after hearing both the officer's story and that of Jones, discharged him on the double parking charge, but fined him \$5 for failing to obey the command of Officer Kinch.

### FORST PRODUCTS BEING SENT TO DISTANT PLACES

Jacob Forst Packing Co., Inc. of Abel street has recently filled orders for many distant places, including Newfoundland, Porto Rico and Miami, Florida. Myron Weil of 17 Battery Place, New York city, is handling the export trade for the local concern.

Recently the Forst Company opened offices at 147 Felix street, Brooklyn, where a large sales force is being employed.

### Our Growing Population

The following births have been reported to the Board of Health:

Mr. and Mrs. John A. Kovacs of 75 Kingston street, a son, John A.

Mr. and Mrs. Charles Marshall of 29 Sycamore street, a daughter, Dorothy Mary.

Mr. and Mrs. Alvin Nicholas of Rifton, a daughter, Beverly Ann, at Benedictine Hospital.

Mr. and Mrs. Vincent J. Andretta of 41 Railroad avenue, a daughter, Patricia Kathryn, at Kingston Hospital.

Mr. and Mrs. George Schryver of 14 1/2 North Front street, a son, Frederick James, at Kingston Hospital.

Mr. and Mrs. Frank F. Scott of 296 Third avenue, a son, Joseph Raymond, at Kingston Hospital.

Mr. and Mrs. Wilfred Neff of Kaserike, a son, John, at Benedictine Hospital.

Mr. and Mrs. Robert C. Lowery of Stone Ridge, a son, Robert Charles, Jr., at Benedictine Hospital.

Mr. and Mrs. Floyd Barringer of Samserville, a son, Vincent, at Benedictine Hospital.

Mr. and Mrs. John Schatzel of 13 Furnace street, a daughter, Mureen Frances, at Benedictine Hospital.

### Westminster Guild

A meeting of the Westminster Guild of the Rondout Presbyterian Church was held at the home of Miss Helen Cragin on Monday evening, December 5. The devotions were in charge of Mrs. Elizabeth Genter and were followed by a short business meeting. At the close of the meeting the girls made washcloth dolls to be sent to Ellis Island for the immigrants.

## City Tax Rate Should Be Lower The Coming Year

County Tax on City Estimated to Be About \$7 Lower Than Last Year and with Increased Assessments Made During Year Rate For 1933 Should Be Under Past Year's Rate.

Under the provisions of the city charter all budgets of the various departments and boards must be filed on or before December 15, at which time the annual city budget will be made up and a public hearing held later by the mayor on the proposed budget for 1933.

Former Mayor Palmer Canfield at a recent meeting of the Common Council made the statement that he had been informed that the county tax on the city would be about \$7 less than it was the past year, which means a decrease of \$7 in the city tax rate. During the past year the city assessor has also raised the assessments on many properties and with the increased assessments, and if the city departments and boards reduce their budgets as they have been requested to do there is no question but the city tax rate for 1933 will be lower than that paid the past year by the taxpayers of the city.

At the present time there is a local law before the council which provides that the city tax be paid in two installments. It is expected that the council will hold a special meeting next week to take favorable action on the bill which, if adopted, would go into effect in time for the 1933 tax collection period.

### Philippine Issue Before the Senate

Washington, Dec. 9 (AP).—As the Senate today swung into its second day of debate over Philippine independence, sponsors of the legislation predicted principal arguments would revolve around trade relations pending full freedom rather than constitutional issues as raised by Senator Copeland (D., N. Y.).

Senator Smoot (R., Utah) let it be known he was considering an amendment to reduce the permissible sugar imports free of duty, which the pending Hawes-Cutting bill fixes at \$50,000 tons annually for the transition period prior to full independence in 1935.

On the other hand Representative Hare (D., S. C.), author of the bill approved by the House last session granting independence in eight years, urged a limit of 1,100,000 tons of free sugar imports, including 50,000 tons of refined.

Senator Copeland had the floor today to continue his argument that the United States could not grant freedom to the Philippines without amending the constitution.

### School Men's Club To Hold Dinner

The School Men's Club of Kingston will hold a dinner on Thursday evening, December 15, in the Kirkland Hotel, at which time the assistant commissioner of the state Department of Education, Dr. George M. Wiley, will speak. This affair is expected to be one of the most elaborate ever given by the club inasmuch as it is called the informal get-together.

Many outstanding educators in the surrounding districts are expected to be present. Superintendents, principals, members of school boards and their friends along with prominent men of other professions have made reservations.

### Ruth Chapman Has Lead in School Play

Ruth Chapman, daughter of Mr. and Mrs. Clowry Chapman of Woodstock, and a graduate of Kingston High School, class of 1930, will have the part of Mrs. Moonlight in the play of that name to be presented by the senior class of the Feagin School of Dramatic Art, New York city, in the Fifty Seventh Street Playhouse tonight and Saturday.

### Son Born to Downers.

New York, Dec. 9 (AP).—A 7 1/4 pound son was born at 2:55 a. m. today at Harbor Hospital to Barbara Bennett, actress wife of Morton Downey, radio and vaudeville singer. Miss Bennett, daughter of Richard Bennett, famous actor, and sister of Constance and Joan Bennett, film stars, married Downey at St. Patrick's Cathedral here in January, 1929. This is their first child. The baby will be christened Morton Downey, Jr.

### BALLOON FROM NEW JERSEY LANDS IN HIGH FALLS.

High Falls, Dec. 9.—A balloon filled with helium gas made a trip from the Brightman's annual movie ball in Glen Ridge, N. J., to High Falls in 13 hours. The balloon sent up at midnight Saturday, December 3, landed on the dairy farm of Ganss Beach in High Falls at 1:04 p. m. on Sunday, December 4. Mrs. Beach, who was preparing dinner, saw it land. A card attached to the balloon stated the time that it was sent into the air.

### Peter Lool Sued for \$33,968.

New York, Dec. 8 (Special).—An action was begun in Federal Court here today by the Passaic (N. J.) Bank and Trust Company to collect \$33,968 from Peter Lool of New Paltz on an unsatisfied bond and mortgage deal. The bond and mortgage were executed to Jacob and Samuel Kuchinsky in the amount of \$72,000 on July 1, 1926, with the provision that if \$35,000 were paid by July 1, 1928, the bond was to be voided. Payment was not forthcoming at the time, according to the petitioner, which is now the holder, and a judgment of foreclosure and sale obtained. The uncollected balance amounts, according to the complaint, to \$32,968.

### Treasury Receipts.

Washington, Dec. 9 (AP).—Treasury receipts for December 7 were \$1,422,205.88; expenditures \$12,700,158.33; balance \$248,381,258.12. Customs duties for seven days of December were \$5,612,457.29.

### New Year's Dance.

The first New Year's eve supper and dance will be held at the Governor Clinton Hotel on the night of Saturday, December 31. Reservations can be made by phoning 2700.

## Jesse Deyo's Herd Second in N. Y. State

And a Close Second at That in List of 661 Herds That Qualified For Honor Roll Diplomas in Statewide Rating.

An Ulster county dairyman, Jesse Deyo, has a herd of 14 Holsteins that rank second in the state of New York, a "close second", according to the official report, in a rating of 661 herds, including all breeds of cattle.

Six hundred and one members of New York dairy herd improvement associations qualified for honor roll diplomas with herds averaging about 300 pounds of butterfat per cow. These 601 honor roll dairymen, 31 per cent more than the 457 men who received diplomas in 1931, own the better herds in 67 associations in 42 counties of New York state.

The three Wayne county associations, testing also a few herds of Seneca and Ontario counties take the lead in number of honor roll herds with 49. In these three associations, 40 of the 65 herds tested for the year made honor roll records exceeding 300 pounds of fat per cow. The Niagara-Orleans Association had the largest percentage of honor roll herds, 21 herds, or more than 80 per cent of the 26 herds tested, exceeding the requisite 300 pounds of fat per cow. Evidently the fruit counties of western New York also have good dairymen.

Of the 601 honor roll herds, 375 average between 200 and 250 pounds of fat, and 57 herds averaged above 400 pounds of fat. Two herds beat the 500 pound mark.

The leading herd for the past year is owned by Sharon Maubs of Schoharie county. Mr. Maubs' herd of 19 purebred Holsteins made the remarkable average production of 15,443 pounds of milk and 537.7 pounds of fat.

A close second to Mr. Maubs' herd is the purebred Holstein herd owned by Jesse Deyo of Ulster county. Mr. Deyo's 14 Holsteins averaged 15,282 pounds of milk and 534.9 pounds of fat.

Such herds present possibilities and give all dairymen something to aim at. The cows in these two herds produced nearly three times as much as the New York state average of 5,472 pounds of milk. Such high production, of course, requires more feed, but gives a larger return above feed cost. Five per cent of the herds in New York dairy herd improvement associations made averages exceeding 400 pounds of fat and two herds exceeded 500 pounds. While not all dairymen can make such high averages, they can all keep records of production of milk and of fat and gradually increase the average production of their cows by better feeding and by the use of better bulls.

Fewer and better cows make less work and more money. Records of milk and fat production and of feed cost are the measuring stick of progress and are essential in developing a high production herd. Ask your county agent about the dairy herd improvement association and the dairy record club.

### JAPS AND CHINESE FIGHT IN SHADOW OF GREAT WALL

Tientsin, China, Dec. 9 (AP).—Japanese military activities, including firing on a Chinese water tower, were reported today near Shanhaiwan, on the Chinese side of the Great Wall. The city of Shanhaiwan, an important Chinese garrison, is on the Jehol border, where the Chinese wall comes down to the sea. Chinese reports said the Japanese, having ripest out the revolt in northwest Manchuria, planned to extend their activities into the disputed Jehol province.

## President Calls For Reorganization Of Federal Government

Washington, Dec. 9 (AP).—In a bulky message, President Hoover placed before Congress a series of recommendations for partially reorganizing the federal government by reshaping 58 executive branches in a new pattern and reducing the number of independent agencies by 15.

The mass of proposals called for no additional offices, but regrouped the duties of four assistant secretaries in the "little cabinet." The new titles would be assistant secretaries of the interior for public works; of the interior for education, health and recreation; of agriculture for land utilization; and of commerce for merchant marine.

Under them would be consolidated various bureaus and agencies now spread throughout the government, although often conducting similar work.

Simultaneously with the outlining of this interwoven plan, the President submitted 11 executive orders for carrying it into effect. If no Congressional objection is raised within 60 days the reorganization will go forward as proposed.

Senators and Representatives of both parties were chary at immediate formal comment pending study of the message. There was early speculation, however, that some block might be placed in the path of the President's plan by Democratic leaders, particularly in view of the recent announcement by President-elect Roosevelt that he intended calling in experts for a pre-inauguration study designed to produce a reorganization plan of his own.

### Bar Convention in Troy on November 17

The third annual convention and meeting of bar associates of the Third Judicial District will be held in Troy on December 17. The convention will open with a business session at 2:30 p. m. in the Rensselaer county court house. After the business meeting at which officers will be elected, there will be a debate on "Resolved that compensation should be provided for injuries sustained in automobile accidents in manner similar to the Workmen's Compensation Act." Michael D. Reilly of Albany will take the affirmative and Samuel B. Coffin of Hudson, the negative. The discussion will be open to all members of the bar.

Following the discussion an address will be given by Gilbert H. Montague. Dinner will be served in the Hendrick Hudson Hotel. Justices of the Appellate Division, third department, and Justices of the Supreme Court for the third district will be guests. Charles W. Walton, Cleon B. Murray and George F. Kaufman are members of the committee for the dinner.

### Bank Proposal Ignored By Senate

Washington, Dec. 9 (AP).—The administration proposal for a new study of the banking question was discarded today by senate leaders, instead they pressed ahead with plans to take up again next week the Glass bill designed to strengthen the Federal Reserve system and block use of Reserve funds for speculation.

Secretary Mills' recommendation, in his annual report, for creation of a joint congressional committee to draft a bill reforming the banking system, found a cool reception among Republican and Democratic senate leaders.

They pointed out the banking committee had spent the better part of two years studying the situation and in drafting the bill now before the senate bearing the name of Carter Glass, Virginia Democrat, former secretary of the treasury and sponsor of the Federal Reserve System.

### Increase In Labor Noted In October

Washington, Dec. 9 (AP).—An increase in employment and larger payroll disbursements were the bright spots of the business situation of the United States during October, and general business activity remained at the level reached during the September rise.

The commerce department in its monthly review made this report today. Industrial output, it said, remained unchanged because of further increase in mineral production, chiefly coal. Manufacturing production was slightly lower and the consumer goods which have been responsible for recent increases showed some recession. The decline in textiles was not pronounced but came at a period when there usually is an increase.

### Asks Postponement.

Washington, Dec. 9 (AP).—Poland, in another note to the United States government, today repeated its request for postponement of the \$4,480,000 war debt installment due December 15, bolstering the request with a detailed statement of the country's unsatisfactory economic position.

### To Distribute Stock.

New York, Dec. 9 (AP).—General Electric Co. announced today that it would distribute to its stockholders one share of its holdings of Radio Corporation of America stock for every six shares of General Electric common.

## Roosevelt Calls for Repeal of Mandatory Salary Laws of City

State Capitol, Albany, N. Y., Dec. 9 (AP).—President-elect Roosevelt, making his last appearance before the New York Legislature before relinquishing his governorship, today called for immediate repeal of mandatory salary laws governing certain employees of New York city to enable the city to reduce its budget \$40,000,000.

Mr. Roosevelt also recommended that a study be made of the machinery of government in New York city so that laws bringing about certain changes can be enacted at the regular session of the legislature which opens in January.

The governor further suggested to the special session of the legislature that New York's chief executive be empowered to appoint financial agents to pass upon expenditures of cities and counties which have defaulted, or are in danger of defaulting in their obligations.

The governor recommended that the law makers in stripping away restrictive salary laws permit the mandatory law governing teachers throughout the state to stand. He added, however, that temporary curtailment in the pay of school teachers be permitted but cautioned against letting that curtailment be greater than the salary cuts in state departments.

Mr. Roosevelt explained to reporters that his suggestion for the appointment of financial agents was inspired by a similar provision in Massachusetts. He pointed out that the enactment of such law in Massachusetts was justified in the case of several communities of that state, notably Fall River.

The special session of the Legislature, called primarily to aid New York city, met this afternoon with both Senate and Assembly gathered in the huge, sombre assembly hall to hear the governor's message.

### RABBI WILL LECTURE ON SPIROZA RELIGION.

At the Sabbath evening services at Temple Emanuel on Abel street tonight, Rabbi Victor Epstein will take as the subject of his lecture, "Was the Synagogue Wrong in Excommunicating Spinoza?" Interest in Spinoza's philosophy has been re-stimulated this year through the celebration of the three hundredth anniversary of his birth, and a large attendance is expected at tonight's services.

All those desiring invitations to hear Helen Keller on December 13, under the auspices of the Kingston Federation of Women's Clubs, can obtain them from Rabbi Epstein after the service, which begins at 8 o'clock.

## Special Envoy to Woo British for Argentina

By GIBBON D. SEYMOUR.  
 Buenos Aires (AP)—Argentina is sending her first and most important envoy to London this month to repay the visits of the Prince of Wales and to woo the chiefs of empire for realignment of Anglo-Argentine trade.  
 The traditional commercial currents between the two countries have been diverted by the Ottawa agreements, tariffs and exchange restrictions.

**Seeks New Pact.**  
 Dr. Roca sails December 14, and after he has golfed, danced, ridden and flown with the prince, and has used his Oxford English to voice Argentine appreciation for past British friendliness, he will have some conversations with leaders of the British state.

Out of these, it is hoped will come a trade agreement adjusted to the necessities of mutual crisis. Argentina wants to insure English markets for her wheat, meat and corn. England wants fair treatment for her \$3,000,000,000 investments in Argentina. Also she would like to sell Argentina more British goods to offset the English money paid to Argentina for food.

The stoutness of the cords which have bound the two countries for a century will be examined in detail for perhaps the first time during the visit of Vice President Roca.

**English Stake Largest.**  
 Spain gave Argentina its language, the United States influenced its essential forms of government, but England is the mother of its economic life.

There are three hundred English dollars invested in Argentina for every inhabitant, a stake seven times as great as that of the United States.

But figures tell the story incompletely. An Argentine writer recently summed up homelier ties. The English, he said, are responsible for the Argentine custom of shaving daily. They taught Argentina to drink tea every afternoon.

**Sports Also British.**  
 Argentina's national sport, soccer football, which draws 60,000 to a single game, was introduced by the English. The English built the first golf courses, the first tennis courts and the first polo field.  
 It is Dr. Roca's task to convince England that Argentina values the relationship which came to it so effortlessly, and is prepared to make any fair concession to maintain it.

**WIDOWS (17—COUNT 'EM) EXHAUST MOTHER-IN-LAW**

Peiping, (AP)—Harassed by the squabbles of her widowed 17 daughters-in-law, the mother of General Chang Tsung-Chang, late governor of Shantung, has entered a nunnery here.

Chang was assassinated recently at Tsinanfu and immediately his widow and 16 subsidiary wives began quarreling over his estate.  
 The widow got away to Dalren with valuables reported to be worth \$7,000,000. The sixteen then wrangled so fiercely over \$200,000 in real estate that the senior Mrs. Chang fled to the nunnery.

 When steel becomes rusty rub with a piece of fine emery paper that has been dipped in turpentine. Polish with a fresh piece of emery paper and your rust is gone!

## Prince Louis Sells Monaco to France

VIEW of the beautiful city of Monte Carlo, capital and principal part of the principality of Monaco, and at the right, Prince Louis of Monaco, whose family has ruled the small country for many years. It has just been announced that the republic of France has purchased the entire principality for the sum of \$520,000 and \$150,000 yearly forever to Prince Louis' family. Monte Carlo is the location of one of the most famous gambling casinos in the world.

**Lisbon Builds Homes**  
 Lisbon (AP)—To decrease unemployment and aid in solving the housing problem of the working classes, the Portuguese government will build 1,000 small homes at a cost of \$550,000.

**Brazil Burns Money**  
 Sao Paulo, Brazil (AP)—The state government will burn its big bundle of grief—the more than \$21,000,000 in rebel currency issued during the late civil war. The ashes will be buried in Aruca cemetery.

**Unemployed Strike Gold**  
 Wellington, N. Z. (AP)—One of two unemployed men who found gold in Otago has sold a six-months option in his claim for \$50,000 plus 15 per cent of the gold extracted, says a report from Dunedin.

**No trick at all**  
 It's no trick at all to stand an egg on end. It's just as easy to see why we made Feen-a-mint a chewing gum. So pleasant even children never fuss about taking it for constipation. But the chewing is what insures even distribution throughout the system the way doctors say a laxative should be. That makes it gentle but thorough in action. Absolutely harmless, non-habit-forming and economical. At all druggists.

## LIGHTS & SOUNDS of NEW YORK

You can talk about game houses and game hall players, but often I think about the gamblers who are old-timers in the theatrical profession. Through the depression, they might have seen them walking along the streets, coming out of employment offices, acting as waiters or at any other job they could get, a little thinner, their clothes a little more worn from brushing, but always calm and courteous, and never a whine out of them. I know of one old actor who must be close to seventy. He never was really a star, but he played prominent parts in support of stars and made good money. During these days, he bought a little place down by the shore. Now he lives there. He speaks of it as his country home; says he is staying there until he accepts a part again.

Actually, it is a small two-room shack, unpainted and forlorn. In one room is an old four-post bed, an antique table, and a chair of good design which needs repairs. On the walls are signed theatrical photographs; old programs, a stage dagger. The table holds a book in soft leather binding, the last relic of a library. The back room has a sink, an oil stove, and a round iron stove stood for coal. If there is any, but which also can be made to burn driftwood. There is one old china cup, saucer, and plate; a tin cup; a frying pan; a coffee-pot. There are two up-to-date appliances in evidence. One is an electric light bulb, suspended from the ceiling by an insulated wire; the other is a telephone.

Except on the occasions when he appears in town, that telephone is the old actor's chief link with the outside world. Its number is in the book. If you call it, the owner will answer in his polished, courtly voice. He will explain that, from motives of economy, he has had to let "his man" go. Hearing that voice, you will vision the owner as speaking from some large and paneled room, with a deep rug on the polished floor and draperies at the windows. You will vision him so—if you don't know better. Never a whimper, never a complaint. But the chances are that some day a friend will call that number, and the telephone will ring and ring. The old-timer will have been given a new role—a permanent part, betting, a fine actor and a gallant gentleman.

Many of the New York theaters are built on leased land. In most of the old, long time houses there is a clause pertaining to the "owner's box." This clause, in the original lease, and therefore binding, in any sublease, provides that a box shall be set aside for the owner of the land, or his heirs, and shall always be obtainable on demand for any performance.

Women's mushroom hats covered the forehead, ears and head, and met coat collars in the rear. New style hats barely cover the eyes and one ear. As a result, the business of hairdressers has been stimulated by a new look of curls, and women have been catching colds in the back of their necks.

They tell me that a lot of actors out of work are thinking of establishing a sort of vaudeville trucking route. The idea is to take the show to the customers and then pass the hat.

The rocking chair. It is asserted, was invented some 500 years ago. It seems as if we knew folks who had been sitting in them longer than that.

## Silver Foxes Tattooed to Help Identification

Stuart, Neb.—Breeder of silver foxes at the Stuart fur farms, north of here, have devised a way of keeping straight on the family trees of each fox.

A black ink pigment is tattooed with an electric needle into each ear of the fox. This serves as a breeding record guide and also to identify the fox if it escapes from the pens.

The ink never fades or wears out. On one ear the letters "S. S." are tattooed, and on the other a number and the year the fox was born are tattooed.

To do the tattooing, the fox is captured, his mouth tied shut so he cannot nip the tattoo man, and the animal is stretched out on a flat topped table.

## Canada Plans to Keep Its Large Paper Money

Ottawa, Ont.—Canada's dollar bills will retain their present size for an indefinite period, according to intimations from the department of finance. Reports have been circulated recently that Canada would follow the example of the United States by issuing bills of a smaller size. Such a proposal was under consideration, but when it was found that some banks had offered a new issue of large bills the project was dropped.

Olds, 150,000,000 to 1.  
Washington—The odds against a railway passenger meeting death in an accident while traveling are 150,000,000 to 1. This reassuring figure is shown in reports of the American Railway Association.

## Destructive Hawk

The Cooper's hawk is one of the most destructive birds in the United States and is migratory, going south in winter to far as southern Mexico. Its breeding range includes the whole United States south of the Canadian boundary.

## Mental Clinic at K. of C. Hall Dec. 16

On Friday, December 16, the Middletown State Homeopathic Hospital will hold a mental clinic in the Knights of Columbus building, corner of Broadway and Andrew street, Kingston, between the hours of 10 a. m. and 4 p. m.

All patients on parole from this

hospital are requested to report to this clinic and persons who have relatives and friends in the hospital are invited to attend.

Free consultation and advice will be given to anyone who desires to talk with the physician about his own mental condition or that of a relative or friend.

Contentment  
There is a great difference between contentment and a dead ambition.

## Rotarians Treated Boys to Gym and Swim

Twenty-four little boys had fun last night. They were small, and in some cases, very dirty little boys, ranging in age from eight to ten. They came from all parts of Kingston to the Y. M. C. A. building at the invitation of the Kingston Rotary Club. They arrived at the "Y" at six o'clock, and were greeted by Mr. Fuller and Mr. Foster of that organization, as well as the members of the Boy's Work Committee of the Rotary Club.

A few minutes after six, these 24 boys tramped onto the gym floor led by Athletic Director Foster. They marched, they did exercises, they played games, they raced and they were glad that they were there. After nearly an hour of play, they were lined up in single file before the door leading downstairs to the shower room and swimming pool.

"What is your name and what size

shoes do you wear," was the first question asked each boy as he came forward. Mr. Fuller of the Y. M. C. A. took their names and shoe sizes while Donald Sweeney of the Rotary Club measured them for gym suits. One bright eyed boy of nine years proved to be a cynic. As the line advanced and he came near enough to see what was going on, one of the men heard him remark, "Getting us gym suits, eh? I bet we have to pay for them." But he was told that the only thing he had to do was have a good time.

When the last boy was measured, the entire group went to the locker room, stripped, and dashed for the showers. This was the only time for the door leading downstairs to the shower room and swimming pool. About ten of the twenty-four boys had failed to bathe since the old swimming pool closed for the year back in August. It was pretty hard work to get the black rings off the ankles, especially with only a little soap and water. But the green colored water of the swimming pool just beyond the shower room looked swell, and with a never say die spirit, ten boys scrubbed ankles and legs with gusto. Once or twice they approached the inspector on guard, but each time the inspector was firm, telling them to scrub a little longer. Soon nearly all of them had passed muster, and were swimming and kicking about in the pool under the watchful eyes of the life guards.

"Red" wasn't so fortunate. He sorrowfully watched his comrades pass inspection, but scrub as hard as he could, the old dirt clung to his ankles like a pair of black socks. "Doggone it," muttered Red, "all the other guys are out there swimming, but I can't even get by the gate." He grabbed a hunk of soap and scrubbed briskly. At last help came from the inspector, who noticed Red's plight. Joining forces with Red, the two of them worked diligently, and within four minutes Red had joined his pals in the pool.

Last night was only the beginning of this get together between the Rotary members and their youthful guests. Every Thursday night they will meet at the Y. M. C. A. at six o'clock, don the gym suits that will be issued to them, play games and do exercises, and finish up with a shower and a swim in the pool. Some Thursday nights they may enjoy a special treat with "eats", and sometimes a member of the club may tell them stories.

Each one of these boys was picked from various schools in Kingston because he was in need of recreation of this type. The only object of the program is to offer every boy an opportunity to enjoy the play and fun that this sort of training alone can offer a growing boy. The members of the Rotary Club, in resuming this program, are certain that future results will well repay them for the work and effort it will demand of them, as they were repaid in the past by the results of similar activities.

## L. C. B. A. HELD ELECTION OF OFFICERS THURSDAY

L. C. B. A. Branch Number 256 held a very interesting and enthusiastic meeting at St. Mary's School hall Thursday evening when the following election of officers took place: President, Mrs. Edmund D. Tremper, re-elected; first vice president, Mrs. Joseph F. Sullivan, re-elected; second vice president, Mrs. J. Herbert Cramer, re-elected; recording secretary, Katherine E. Welch, re-elected; assisting recorder, Miss Elinor Cramer; Mrs. John B. Glennen, treasurer, re-elected; Mrs. Andrew J. Murphy, Sr., financial secretary, re-elected; trustees, Miss Anna Draper, re-elected; Mrs. Anna Raichle, re-elected; Miss Jane A. Flynn, re-elected; Mrs. Hugh McGuinness, and Miss Catherine Hughes.

Installation of officers will take place at the next meeting January 5. At that time the finance committee will be appointed.

Delegates to the convention which will be held at Rochester in July, 1933, are Mrs. Edmund D. Tremper, delegate; Mrs. Joseph F. Sullivan, alternate. The meeting closed with a good report for the year.

## An Apple a Day

New York State's apple crop this year is estimated at 29,000,000 bushels. Thousands of bushels will rot because of a lack of sufficient consumer demand. Take advantage of the situation—use the apple recipes which will appear in each issue of this paper—eat them out for future reference.

APPLE SHERBET  
4 cups apple juice  
1 1/2 cups sugar  
3/4 cup lemon juice  
1 cup sour cream, whipped  
1 cup water  
Boil sugar and water 10 minutes. When this has cooled, add the apple and the lemon juice, and freeze to a mush. Add the whipped cream, and continue freezing.

These recipes are compiled by the experts of the New York State College of Home Economics, at Cornell University. Others, and others, are made available through Consumer Information Service of the New York State Department of Agriculture and Markets.

## Matters Before The Surrogate

The will of Cornelius Countryman, who died in Ellenville November 8, and who was one of the few surviving veterans of the War of the Rebellion, has been admitted to probate upon petition of Clara Powers, daughter, who is executrix. Raymond G. Cox is the attorney. There is no real estate and personal is estimated at \$500. To each grandchild is given \$10, the remainder of the estate being bequeathed to the daughter, who is asked to set aside \$50 income to be used for care of the family plot in the old cemetery, Ellenville. The will also contains the request, "If my daughter shall dispose of my horse, I desire her to use every care and precaution so that said horse is disposed of to an owner who will give it good care and kind treatment, such as it has always had from me." To residents of Ellenville, Mr. Countryman and his horse, the latter always carefully cared for and driven with great pride under tight rein, were familiar sights for years past. In addition to the daughter, the following grandchildren participate in the estate: Sadie, Demarest, Ouida Elliott, Middle town; George Ray Evans, Ellenville; Florence Linderman, White Plains; Olive Johnson, St. Albans, Vt.; Floyd Stanley Evans, Trenton, N. J.; Lillian Van Leuven, Kerhonkson.

Mary L. Dowe, widow, is the executrix and beneficiary under the will of John H. Dowe, who died in Kingston, October 16, 1930. The estate consists of real property valued at not to exceed \$5,000 and personal of not more than \$500. Frederick Stephan, Jr., is the attorney.

Will of May L. Daiber, who died in New York on October 13, admitted to probate upon petition of Alfred J. Daiber of Woodstock, husband, who is executor and sole beneficiary. There is personal of not to exceed \$2,000. William H. Grosan is the attorney.

Will of Benjamin N. Crispell of Hurley, who died in Middletown October 21, admitted to probate. Raymond Crispell of Mt. Marion is the executor and the attorney is Henry R. DeWitt. The estate consists of real property valued at not to exceed \$500 and personal of not more than \$4,668. There is a small bequest to Homer H. Crispell of Haverstraw, a son; remainder of the estate to Raymond Crispell.

### OUR DAILY PATTERN

A Pretty Morning Frock for the Larger Woman

7689. Comfort and grace are expressed in this pleasing style. Long waist portions are lengthened by skirt sections, cut with the new straight flare. The pointed outlines give a slenderizing effect to the figure. The sleeve may be in wrist length finished with a band cuff, or in short length as shown in the large view. Tie ends of bias binding or ribbon form a youthful attractive finish at neck and sleeve edges. Linen, cotton print, tub silk or voile is suggested for this model.

Designed in 8 sizes: 38, 40, 42, 44, 46, 48, 50 and 52 inches bust measure. Size 46 if made as in the large view will require 3 1/2 yards of 35 inch material. With long sleeves 3 3/4 yards will be required. To finish with bias binding as in the large view will require 5 1/4 yards 1 1/2 inch wide. The width of the dress at the lower edge is 2 1/2 yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Change in Human Profile. Comparing the teeth of modern college students and primitive Indians, two University of California professors found in the students a tendency toward increase in the overbite of the upper front teeth; in other words, the human race is apparently becoming more "ratty" in its profile.

## SANTA AND THE MAGIC DOLL

SYNOPSIS: Inga, Torland's most beautiful doll, against Santa's orders, admits a witch to the toyshop who turns the doll into an ugly old woman through a little, bewitched gold mirror. It happens when Pinocchio, a clown doll, isn't near.

### Chapter V. THE MAGIC MIRROR.

Pinocchio wasn't near when the witch coaxed her away into talk to Inga, or else what happened might never have come to pass. He wouldn't have let the witch in. But when he came to the beautiful doll she had grown old and ugly under the witch's spell, and the witch was gone. She had only wanted to spell this doll that Santa liked.

"Help, help," gasped Inga. "I feel so queer."  
"Oh, Inga!" cried Pinocchio, running to her side. "There is nothing we can do about it unless some one finds the witch and burns her."  
"Help! Santa, help!" cried Inga. She caused so much commotion that all the toyshop stopped work and looked at her. They didn't even recognize her.

"It's a witch, put her out!" the dolls cried.  
"No, it's Inga," said Pinocchio, but no one listened to him. The soldiers rushed up waving their swords and forced poor Inga to run wildly out of the toyshop.

They banged the door after her and called, "Don't you dare come back in here."

The only one who followed her out was the good, faithful Pinocchio. For a long time she cried, sitting

Pinocchio and Inga, now a little old woman, went into the woods hunting the witch.

out in the snow. Finally she looked up and said to the clown, "What shall I do?"

"Poor Inga," said Pinocchio. "We will build a little house of twigs in the woods and live there. I can gather wood for you and bring in food, and you can make the meals. They really think you are a witch now, and there is no place for a witch to live except by herself. Nobody wants a witch around."

So they trotted away going deeper and deeper into a woods of Christmas trees until finally they came to a huge gray rock.

"This will be a good place," said Pinocchio, "because the rock will protect us from the wind. Sit down and I'll make us a house."

"No, no, let me help."

"But you'll scratch your pretty hands," said Pinocchio.

Inga just held up her hands to show him. They had become old like her face, and were bony and gnarled.

"Never mind, Inga," said Pinocchio. "Some day we'll find that witch."

So they hurried and by nightfall they had put together a little house. They gathered pebbles to make a fireplace, and moss to make mattresses for their beds.

"But we have no plates," said

Inga. "All we have is this old mirror the witch gave me. I was so excited I just carried it along."  
She held it up and looked into it, but this time she didn't see a thing. "Why, it's all fogged. It isn't even good for anything," she said. "Oh, yes, I am," said the mirror. "The witch had her spell on me too, when I spoiled your prettiness. But now it is gone. I have no love for that witch. She stole me from a princess' dressing table. I will help you."  
"But how?" asked Inga pleased that her mirror could talk.

"Whenever you want to know where anything or any person is, just look into me and you will see," said the mirror.

## Golden Rule Inn Features New Revue

Augmenting the regular features of Roger Baer and his orchestra at the Golden Rule Inn this week, is the Mary Dean Polka Revue, the second in a series of floor shows to be presented there during the winter, a much improved group over that which appeared two weeks ago and which opened the season. The Polka Revue opened Thursday evening and will again be staged tonight and Saturday.

The chorus composed of six clever girls including Dolly Clow, Catherine Turner, Nancy Morley, Madge Mount, "Ickie" Forbes and Eve Edge, do a variety of choruses and individual numbers which seemed to the liking of those present Thursday evening. Mr. Baer supplements with accordion solos and dance music.

The Inn has been redecorated for the winter in silver and the stage is especially beautiful in its silver setting, creating an enjoyable atmosphere for an evening's entertainment.

The program as rendered Thursday evening was as follows:

Opening Chorus.....Ensemble  
Eye, Bye Blues, a buck and wing dance.....by Miss Clow  
Sentimental Man from Georgia.....Sung by Miss Clow  
Shine Your Shoes, dance.....By Ensemble

Nola, request number, by Mr. Baer on the accordion, which called for an encore  
Shanty Town.....Sung by Miss Edge  
Also called for an encore  
Whispering, another buck and wing dance.....by Miss Clow  
Aloha, a Hawaiian dance number.....by Miss Forbes  
River Stay Away from My Door.....Sung by Miss Turner  
Finale—Bugle Call Rag.....by the Ensemble

## PRESBYTERIAN WOMEN'S MISSIONARY SOCIETY MET

The regular monthly meeting of the Women's Missionary Society of the Roundout Presbyterian Church was held at the chapel, Tuesday, December 6, at 3 o'clock.

After the business and the devotions, which were conducted by the president, Mrs. Scott, the study of the book, "Facing the Future," was continued.

Three excellent and very interesting papers were presented by Mrs. James Armstrong, Jr., Mrs. Frank McCausland and Miss Mary McCutlough respectively, their topics being, "The Diversified Program for the Indians," "Health" and "Education."

The ladies remained after the meeting to pack a box of clothing which is to be sent to Miss Jennie Moore, a community worker at Flag Pond, Tennessee, for distribution among the needy for whom she is doing such splendid work.

When that was done, everyone was ready to partake of the delicious pancake supper given by the members of the art department of the Ladies Aid Society of the church.

Old College Fraternity  
Beta Theta Pi was the pioneer fraternity of the Middle West. It was established at Miami university, Oxford, Ohio, in 1832.

### Rural Church Services.

A service of interest was held in the Lyonsville Church last Sunday afternoon when the Young People's Community Club attended the service and rendered a selection during the offertory, accompanied by Miss Mildred Harley on the piano.

Next Sunday in both the Krumville and Lyonsville churches Mr. Heathwaite will officiate. The subject of the sermon is "Bigness vs. Little-ness."

### Book Reviewers' Heaven

Angora, Turkey (P).—Weary book reviewers of the western world might consider Turkey where in eight months only 157 books have been published, including only 10 novels and 17 volumes of verse. Authors of this serious minded young republic get into print chiefly by writing history.

## Japan For Submarines, Against Plane Carriers, Naval Minister Reveals

By GLENN BARR.

Tokyo (P).—Japan is willing to abolish aircraft carriers, but is determined to keep all the submarines she can, Admiral Keisuke Okada, minister of the navy, said in a discussion of Japan's share in the Geneva disarmament conference.

The minister emphasized that Japan "approved heartily" of the efforts of the powers, in which the leadership of the United States was acknowledged, to lighten taxation burdens by limitation of armaments.

Mackinac's Ideal. "Abiding by the spirit of these efforts," he continued, "we have instructed our delegates to offer our own plan of limitation whenever it appears that there is a chance of its being accepted or of its contributing to any beneficial result."

"It can not be said that our plan runs counter to the spirit motivating President Hoover and the British statesmen in the naval reduction plans they have offered at Geneva. We agree with them in their anxiety to reduce the offensive power of sea forces, but we find it impossible to accept their schemes without modification."

"It is not my place to disclose the details of Japan's naval limitation plan, but I can state that Japan approves thoroughly of the principle of reducing the offensive weapons of navies."

Japan's Best Weapon. "With this in mind it can be stated that the Japanese navy considers the airplane carrier, with its wide cruising range and its capacity for launching attacks on distant coasts, 100 per cent offensive."

"On the other hand we consider that the weapon best suited to the peculiar defense needs of the Japanese empire is the submarine."

"Our empire is a long chain of islands, and in event of hostile attack it is imperative that communications between these islands be maintained. The submarine is the ideal weapon for preventing an enemy fleet from cutting the links."

"Since the Japanese navy conceives its mission as primarily a defensive one, for even its hypothetical war plans do not include the launching of an attack against distant enemy coasts—as, for example, a crossing of the Pacific to attack the United States—we believe there is room for further reduction in size and power of capital ships."

Against Big Guns. "If other naval powers agreed

KEISUKE OKADA

Japan would be ready to reduce further the maximum tonnages of battleships and battlecruisers and the calibers of their guns.

"It can also safely be said that if the other powers agreed Japan would not object to the total abolition of airplane carriers."

Admiral Okada was asked to comment on reports that the Japanese navy, dissatisfied with the 5-6-3 ratios of tonnage allotted to Japan by the Washington and London naval treaties, would propose the abandonment of this system.

"Although we have felt that the Washington and London treaties left much to be desired," he replied, "we have not thought seriously of proposing that the ratios be abandoned."

Fears Further Cuts. "It is putting it too strongly to say we are 'dissatisfied' with the treaties, but we do feel that with each successive reduction of naval strengths the application of the arbitrary standard of tonnage ratios works with increasing injustice against the powers to which lesser ratios are allotted."

Mail Carriers' Retirement. The Post Office department says that a rural mail carrier is not required to retire when he reaches sixty-three years of age. Retirement is optional and he may carry mail two more years if he so desires.

## RHEUMATISM

See Medicine Drives Out Poisons,  
 That Cause Torturing Stiffness,  
 Swelling and Lameness

### EASES PAIN FIRST DAY

You cannot get rid of rheumatic aches and pains. Neuritis, Lumbago, Stiffness, lame knotted muscles and painful swollen joints till you drive from your system the irritating poisons that cause rheumatism. That's why external treatments only give temporary relief.

What you need is RUMMA, the new internal medicine that acts on the liver, kidneys and blood, and helps expel through the natural channels of elimination, these dangerous poisons.

No long waiting for your suffering to stop—RUMMA eases pain first day—and gives rheumatic sufferers such safe and lasting relief from their stiffening, crippling lameness and torturing pain that it is recommended by druggists everywhere. McBride Drug Stores urge every sufferer to get a \$1.00 bottle of RUMMA today, and agree to return the purchase price if it does not free them from all their aches and pains of rheumatism.

## Begum Aga Khan Awaiting Heir

Luxurious Lot In Store For Child Of Modern Potentate

By ADELAIDE KERR.

Paris. (AP).—In the goss brocade suite of a luxurious hotel here the Begum Aga Khan, young and beautiful French wife of the wealthy East Indian sportsman who heads millions of Mohammedans of India, is awaiting the birth of their first child.

The fair-haired, dark-eyed woman, who was born of a bourgeois family in the French provinces and whose marriage to the 57-year-old oriental prince three years ago caused wide comment, will reside in the hotel until the end of January, when she will go to a nearby nursing home.

"I am very happy," she said, "and so is the prince. There seems to be an idea that we should go to England for this event because the prince is a British subject. But we shall stay here."

"We had expected to go to India this year, for I have long wanted to see the prince's country. But now we must postpone the trip until next year."

The Begum Aga Khan, who was born Andree Carron in the little town of Chambery and who spent all her life there until her marriage, has become a familiar figure in the social world of European capitals. Her luxurious wardrobe and rare jewels have attracted much attention.

The princess, who denied reports that she was a candy salesgirl before her marriage, has shunned publicity. She has not adopted the Mohammedan religion, but has retained the Catholic faith to which she was born.

The Aga Khan, noted in Europe as a turfman and in India as the religious head of a numerous Mohammedan sect, and his young French wife are expectant parents. The wealthy potentate has a 26-year-old heir by a former marriage.

The Aga Khan III, who is 48th in direct descent from Mohammed's daughter, Fatima, and her husband, Ali, is one of the most picturesque figures in Europe. As the son of the Aga Khan II he is the religious head of millions of Ismaili Mohammedans who pay him annual tribute. He maintains extensive racing stables in England and India, but plays an active role in the political affairs of his country.

### METACAHONTS.

Metacahonts, Dec. 9.—The Willing Workers met at the home of Mrs. Roy Baker on Thursday afternoon, December 1. The following officers were elected for the coming year: Mrs. William Miller, president; Mrs. Roy Baker, vice president; Mrs. Stanley Kelder, secretary and treasurer; Mrs. Chester Wood, organist. The next meeting will be held at the home of Mrs. Oliver Baker on Thursday, January 5.

On Sunday, December 11, the afternoon service will be held in the hall by the pastor, the Rev. Mr. Scholten.

Mrs. Floyd Oakley has been spending a few days with her daughter in Newburgh.

Mr. and Mrs. Jesse D. Rose of Highland called at the home of Mr.

and Mrs. Charles D. Osterhoudt on Wednesday past.

Henry J. Flynn and Franklin Kelder attended conference in Troy on Saturday and Sunday. They reported a fine time.

### Lake Katrine Grange Elects Officers

Lake Katrine Dec. 9.—The regular meeting of the Grange was held in the hall on Monday evening, December 5. There were 58 members present. The officers reported absent were chaplain, gatekeeper, Pomona and Ceres.

The meeting was opened in due form with Worthy Master Davies presiding. After the business was disposed of the lecturer requested that the radio be turned on to hear a half hour of singing by Richard Crooks and Lawrence Tibbett, which was enjoyed by all.

Letters of thanks for flowers and fruit were received from Sisters Gaddie, Sears and Ten Broeck.

The meeting was declared ready for the election of new officers for the year of 1933.

The officers elected for the coming year are: Master, William T. Hooker; overseer, Roy Crosby; lecturer, Maria Lachmann; steward, Donald Parish; assistant steward, Tracy Munson; chaplain, Brother Christian; treasurer, Anna Miller; secretary, Sylvia Parish; gatekeeper, Edwin Osterhoudt; Flora, Louise Ronson; Pomona, Sister Christian; Ceres, Lena Hummel; lady assistant steward, Margaret Munson; executive committee, John Deminier, Sr.

After the election the meeting was closed and refreshments of delicious frankfurters, sauerkraut and coffee were enjoyed by all.

### Sentenced to Prison.

New York, Dec. 9 (AP).—Conrad H. Mann, president of the Kansas City Chamber of Commerce, was sentenced today to serve five months' imprisonment and pay a fine of \$12,000 for violation of the federal lottery laws in connection with "follies" of the fraternal Order of Eagles.

### Mythological Caters

The sphinx was a mythological monster variously described, but usually with a lion's body, the head and sometimes the breasts of a woman, the wings of a bird and a serpent's tail, supposed to represent some ancient symbolism. The Egyptians called the sphinx "Hu" or "Neb" (Lord).

## Kitchens Humming — Christmas Is Near

It's Time To Make Yuletide Confections Once More

Home-made confections, like those above add an old-fashioned touch to Christmas, or wrapped in gay holiday paper, they make fitting personal gifts.

Once again the kitchen has become the scene of bustling activity in the preparation of old-fashioned Yuletide goodies—for Christmas will soon be here.

Both for family feasting and for gift baskets, home-made delicacies provide an old-time Christmas flavor. Without them, Christmas morning hardly would seem complete.

If you choose, jars of mincemeat, fruity spice cakes, puddings and cookies, glazes of jams and marmalades, salted nuts, preserved fruit peels and candles in gay holiday wrappings can be given to friends for they make fitting personal gifts.

Following are recipes for delicious Christmas confections:

### German Almond Cookies.

1 cup fat, 2 cups light brown sugar, 3 eggs, 1 teaspoon vanilla, 2 teaspoons cinnamon, 1 teaspoon cloves, 1/2 teaspoon nutmeg, 1/2 teaspoon salt, 1 cup shredded almonds, 3 1/2 cups flour, 1 teaspoon soda. Cream the fat and sugar. Add eggs and beat well. Add rest of in-

gredients. Break off bits of dough and flatten down, 3 inches apart on greased baking sheets. Bake 12 minutes in moderate oven.

### Date Bars.

**Ward to Game Hogs**  
We are the supreme egotists and monopolists of creation. We go out and murder millions of our kind with scientific inventions, yet we call a tiger bad because it occasionally kills the two-legged barbarian who hunts it. —American Magazine.

**Birds Not Enemies**  
Very seldom do birds become enemies of farmers or present any serious problem. From the largest to the smallest they are mostly insect destroyers and are active in the field or garden throughout the season. —Exchange.

## Kiwanians See Germany Illustrated

An illustrated lecture on "Germany" by Prof. Joshua A. Cope of Cornell University featured the meeting of the Kiwanis Club at the Governor Clinton Hotel Thursday noon. The motion pictures for this address were taken by Prof. Cope on his trip to Germany last summer, and were of great interest to the Kiwanians, some of whom had been to the places described and pictured.

The program opened with a number, "Sweet Genevieve," sung by a quartet composed of Clarence Schoonmaker, Harry Halverson,

Charles Snyder and the Rev. O. E. Brandorf, the verses of which were also sung by the club. A great deal of harmony and enthusiasm developed from this number.

Judge Joseph M. Fowler, who won the book, "Medical Follies," at the last meeting, was called upon to report what he had learned, and the judge stated that in the first chapter he read "There is no such thing as rejuvenation," which caused him to become so discouraged that he had derived no further into medicine.

It was decided to have the members of the club bring toys to the meeting December 22, which would be distributed to children by the Salvation Army. This was done by the club last year, and proved to be a welcome addition to the Salvation Army Christmas campaign.

The Middletown Kiwanis Club

will hold its annual installation of officers on January 11, to which members of the local club have been invited. A committee composed of Elmer J. Smith, president, and Judge Fowler, the first chairman, was delegated to prepare for the installation of the local club.

Guests at the meeting were Albert O. Carr of Lake Katrine, M. N. Roe of White Plains, Jack Epstein of New York city, H. S. Fringle of Ithaca and William A. Warren of Hurley.

Prof. Cope explained in opening his lecture that Germans were "the world's worst politicians but great scientists, whose disciplined minds have compelled the admiration of the entire world." He explained that it was a relief to be in a country where drink was not regarded as a "sin" but was accepted as a matter of course. It was his opinion that

little strong beverage was used, the Germans confining themselves mostly to wines and beer.

Then with the scenes he had captured on his recent trip the speaker painted a picture, verbally and visually of Germany, its old cities, forests, farm lands, towers, castles, people and atmosphere, which compelled the admiration of the club. It was an interesting and educational lecture, and was greatly enjoyed.

The musical arrangements for the program were the handiwork of Paul Zucca, accompanied at the piano by Danny Bittner. The meeting was closed with the thanks of the club extended by President Brandorf to Prof. Cope for a delightful time in Germany.

of Stone Ridge, called on his father Friday evening.

Mrs. Elma Davis, Mrs. Roy Miller and daughter, Thelma, were dinner guests at the home of Jacob and Mildred Barley on Saturday.

Last Friday evening the Young People's Community Club was most pleasantly entertained at the home of Mr. and Mrs. Sherman Barley. Four young people were added to the present membership. The next meeting on Friday evening, January 6, will be held at the home of Evelyn E. Davis.

Mr. and Mrs. Simon Roosa were callers at the home of Mr. and Mrs. Fred Barley and family Sunday evening.

Mr. and Mrs. Vernon Beatty spent Sunday afternoon out of town.

Miss Evelyn Davis and Joseph Bur-

ger called on Miss Mildred Barley Sunday evening.

The attendance at services at Lyonsville Reformed Church last Sunday was greatly increased by the presence of the members of the Young People's Community Club, who attended in a body.

Ernest Christiansa called on Mr. and Mrs. Chester Roosa, Friday evening.

During the several days that George Goodittle spent at the home of Mr. and Mrs. Ray Davis he was busily engaged in making sauerkraut.

Percy Alexander called on Howard Barley, Monday evening.

On Wednesday, Mrs. Chester Roosa and Mrs. Henry Wager spent a pleasant afternoon at the home of Mr. and Mrs. Sherman Barley.

## Flashes of Life Sketched in Brief

By The Associated Press  
Bring Your Own.

Cincinnati—"It's an old Roman custom," explained Miss Carolyn Stites as she sent out invitations to a dinner, bearing the notation: "Bring your own Naphtha." Miss Stites is president of Eta Sigma Phi and of Paleontologists, classical societies, which are giving the dinner tonight in connection with the University of Cincinnati.

The banquet will mark back to the period of Nero, with guests attired in Roman togas or whatever the feminine equivalent was. Between courses a classical chorus will furnish music to the accompaniment of a zither, flute and harp, and a love scene from Homer's "Iliad" will be presented. The example of bringing your own naphtha, Miss Stites said, was not centuries ago by Roman emperors when they dined out.

### Short But Sweet.

Ipswich, Mass.—Corporal Jack Christopher's annual deer hunting vacation ended 15 minutes after it had begun, but was none the less a huge success—except for the deer. The corporal, who is attached to Fort McKinley, bagged a 275-pound buck with four-point antlers, the largest killed in Essex county for years. The law permits only one deer per hunter.

### This Is Too Much.

Charlotte, Mich.—Receipt of congratulatory telegrams from President Hoover, the governor and the governor elect of Michigan on her 105th birthday was almost too much for Miss Lydia Jane Wilson. She fainted and had to give up her plans for reciting a poem at her birthday reception.

### Two Cents, Please

Philadelphia—J. Hampton Moore is mayor but to a certain newboy he's just another customer.

The mayor, hurrying into city hall, ordered a newspaper from the young newsstand. Then he fumbled in his pockets, failed to find any funds, clutched the paper and dashed toward his office, saying: "I'll pay you tomorrow."

"No, you don't," objected the boy, grabbing the paper.

"That's the mayor," somebody whispered to him.

"Oh, yeah," said the lad, holding tightly to his paper.

He held on, too, until a policeman produced the two cents.

### Elsewhere, Mister

Albany, N. Y.—When Ray Richards of Pikesville, Pa., arrived in a vacant lot with a pick, shovel and coffin, a state trooper stopped him.

"What's that for?" the trooper demanded.

Richards showed him that the coffin was equipped with a periscope and feeding tube. He said he was about to be buried alive and stay buried for more than 38 days, 11 1/2

hours, thereby breaking a world's record.

But Richards will have to get buried somewhere else. He was informed that "continuous entertainment" lasting more than 12 hours is forbidden in New York state.

### He's a Gentleman.

Torrington, Conn.—Found—the perfect friend. He removed his suit coats before entering the home of Mrs. Leo Raden during a small fire. "It was very considerate of him," the grateful housewife said, "and I appreciate it very much."

### His Hourly, Mate.

Chicago—More good news: Dealers said turkeys for Christmas dinners will be the lowest in 31 years. Housewives will be able to buy them for as low as 19 cents a pound.

### Honesty "Remembered."

Chicago—Honesty is the best policy: Which is why Emory Tower came to Chicago to talk with police. He said a gentleman gave him a reward for his honesty in turning over \$99 which Tower found in or near his home.

"The reward was a check for \$5," he said, "good in every respect except that the bank it was drawn on has been closed for six months."

### Wind Plays Santa.

Tacoma, Wash.—A "Santa Claus wind" blew ashore tons of foodstuffs in Puget Sound and scores of needy men and women gathered up the "gifts." More than 100 tons of assorted food, including tinned peas, milk, cocoa, salad oil, spinach, hams, bacon and sausage, went overboard when the wind swamped two navy barges. The cargo valued at \$36,000, was intended for the naval base at Cavite, P. I.

### Santa Gets Cash For Eye.

San Francisco—Santa Claus, just like any workman, will be protected by the state if he is injured on the job. The Industrial Accident Commission so ruled in awarding a disability rating to Samuel B. Thomas, 50, who registered his occupation as "Santa Claus." Thomas said his eye became infected from a wig he was wearing while on duty at a department store and that his eyesight is impaired.

### Marksmen? Heh! Heh!

Topeka, Kas.—There are unhappy days for members of the Topeka police force's No. 51 pistol-shooting team. Three of the four team members suffered the chagrin of seeing their wives outshoot them in the state peace officers' pistol shoot.

### Affection

Affection is an awkward and forced imitation of what should be genuine and easy, wanting the beauty that accompanies what is natural.—Locke.

## BLUE MOUNTAIN

Rise Mountain, Dec. 9.—John Daley has returned to his home here, after spending some time with his brother and sister in Cantonville.

Mr. and Mrs. Charles Hommel, of West Saugerties, spent Sunday afternoon with Mr. and Mrs. Claude Hommel and family.

Ruth and Evelyn Schoonmaker and Fred Eckert, of Saugerties, spent

Tuesday evening with Mr. and Mrs. Frank Schoonmaker.

Mrs. Fordyce Hommel spent Tuesday with Mr. and Mrs. William A. Wolcott.

Mrs. Peter Moore is recovering nicely from her recent operation in the Benedictine Hospital.

Mrs. Mary Van Wert is visiting her son, Edwin, and family, of Saugerties.

A number of people in this vicinity

are suffering with severe colds.

Mr. and Mrs. Arthur Freligh of Saugerties are spending some time at the home of her parents, Mr. and Mrs. Peter Moore.

Since and Calk  
Clinical tests show that children suffer more from colds than from improper diet. Does that feeding mean green apples?

**CHRISTMAS** . . . . . Again we approach what ought to be the happiest season of the year . . . . . Christmas . . . . . How it has always thrilled us since childhood! . . . . . But how about those who have not been so fortunate this year? . . . . . Let us spend our Christmas this year in the most unselfish way that we have ever done . . . . . If you do not, personally, know some family with whom to share a happy Christmas, make inquiry among your friends and they will give you the name of some worthy one . . . . . In spreading joy among the unfortunate, you are also spreading joy in your own heart.

School teacher (during English lesson): "I didn't have no fun at the seaside"—how should I correct that, Jack?

Jack—Got a sweetheart, miss.

The answer to "no resources" is frequently "free horses."

Tailor (measuring a new customer): "What about a small deposit, sir?"

Customer—Just as you like; put one in if it's stylish.

Reading in buses is very bad for the eyes, writes an optician. Especially when the person whose paper you are reading won't keep still.

Wife—John, the clock fell off the wall, and if it had been a minute sooner it would have hit poor mother!

John—I always said that clock was slow.

Dramatist—Why are you going away already? There are three more acts to come.

Guest—Sorry, that's why I'm going away.

There appears to be no unemployment among bank robbers and bootleggers.

Teacher—Tommy, tell the class what you know about Patrick Henry.

Tommy—He was born in Virginia. He was married and he said "Give me Liberty or give me Death."

So many people are so busy wondering what the other fellow is doing that they themselves accomplish absolutely nothing.

Phillip, seven years old, returned from playing with a little neighbor girl. After a thoughtful silence he asked:

Phillip—Mother, is it wrong for little boys to kiss little girls?

Mother—No, it isn't wrong, but I think you had better keep your kisses for mother and baby sister for a while yet.

Phillip—I'm sorry, mother, if I ought to have kept 'em, for there's seventeen gone already.

Most successful men are just common people who applied themselves in an uncommon way.

The famous criminal lawyer had won a shockingly bad case by eloquence and trickery, and a rival lawyer said to him, bitterly:

Rival Lawyer—Is there any case so low, so foul, so vilely crooked and shameful that you'd refuse it?

Criminal Lawyer—Well, I don't know. What have you been doing now?

**WHY**

**Rays of Color Make Rainbows Semicircular.**

The secret of the rainbow lies in the individual raindrops. Drops of falling water act like a glass prism in splitting light into its primary colors. The center of the bow is always at the same angular distance below the horizon that the sun is above the horizon. Two persons standing near each other do not see exactly the same rainbow.

The sky is full of raindrops, but a person standing still focuses only one, or one series; if he takes a step forward or backward his eye "focus" a slightly different bow.

There is a popular notion that a rainbow is semicircular because the earth is round. The shape of a rainbow, however, scientists have found, is due to the refraction and reflection of light by the individual raindrops and consequently has nothing to do with the spherical form of the earth. In other words, the rainbow is invariably circular because each color is formed by rays which reach the observer at a given angle, and this angle remains the same for the same color.

What is known as the secondary rainbow, often seen outside the primary, is larger and fainter and differs from the other in that the order of the colors is reversed. In this case two internal reflections instead of one occur in each drop of water.—Sunday Magazine of the Philadelphia Record.

**Why Skunk May Well Be Held Friend of Farmer**

Two of the most unconcerned animals of wild life are the porcupine and the skunk, neither of which will flee from larger animals. The porcupine merely rolls himself up into a ball with his armor of barbed quills offering ample protection as many a hapless puppy has found out to its great sorrow. The skunk, of course, advertises his unapproachability even at great distances.

The skunk, despite his predilection to henn's eggs when he can find a way into a hen house, nevertheless is a friend of the farmer, for he feeds largely on mice and grasshoppers. Being largely nocturnal in his habits, the skunk finds plenty to eat from the hordes of bugs, salamanders and other small forms of life which rest at night. The type of skunk common in this area is widely distributed from Hudson bay to Guatemala.

**Why China Honors Lanterns**

Many picturesque stories have been handed down about lanterns. The origin of the festival of lanterns held annually in China is ascribed to a popular legend.

It seems that the beautiful daughter of a nobleman leaped too far over a pond one evening and fell into the water. An immediate search was instituted, but she could not be found because of the darkness. The nobleman ordered lanterns by whose light the girl was finally rescued. Her father was so thankful for her safe recovery that he ordered the festival of lanterns, a custom which has been adhered to ever since, and which is the scene each year of brilliantly lighted and gay processions, when thousands of lanterns are borne aloft.—Kansas City Star.

**Why College Caps and Gowns**

The movement to have college seniors wear caps and gowns was essentially a student movement to provide a senior badge and to improve the commencement week exercises, take the place of the dress suit and revive the traditions of a continuing and related university life. It was approved particularly by the students on account of its being uniform, which overcame all differences of dress and made for democracy. It was seen that the gowns aided grace and overcame awkwardness in speaking and that the general effect was to make university functions more characteristic, interesting and impressive to all beholders.

**Why It Is "Vix"**

We are all familiar with "vix" meaning "to wit," namely, or, most commonly, "for example."

"Vix" is a curious combination of letters which came into being in its present form through error.

Actually, it stands for the Latin "videlicet" meaning "you may know."

The "v" in "vix" really does not belong there. Its appearance is due to its resemblance to the sign of abbreviation which was used after the two letters "vi."

This was so similar to the letter "z" that it was mistaken for it, and through common wrong usage, it remained in the language.—Exchange.

**Why "Adam's Apple"**

Adam's apple, a term applied to the most prominent part of the throat, having the appearance of a swelling, is based on the superstition that a piece of the forbidden fruit stuck in Adam's throat and caused the lump.—Kansas City Star.

**Why Manatee Is "Sea Cow"**

It is because of the manatee's manner of feeding and the fact that it lives entirely on plants, grasses and other vegetation that may be found springing up from the bottom of the shallow bays which it frequents, that it is sometimes called the sea cow.

**Why Called "Pianoforte"**

The first piano was named "pianoforte" after the Italian words "soft" and "loud," because it could be played either way?

**No Mistaking This**

Frequently the sign "Piano" suffices to keep people from crowding one's lawn, but a certain suburbanite didn't find it so. Finally he had to put up the notice: "Please keep off the grass. Who, me? Yes, you."—Boston Transcript.

**Field Operations Of Fish And Game Group**

Few people realize the amount of constructive work which the Ulster County Fish and Game Protective Association does each year with the small dues which are paid in by members. The past year has been one of the most successful in many years and at the annual meeting held Wednesday evening President Finch reported that two and a half times as much fish and game had been distributed this year in the county as in most years. The Ulster County Federation of Sportsmen's Clubs has been directly responsible for this growth in the fish and game distribution movement and the local fish and game association is a member of the Federation. Since the Federation has taken over the allocation of fish and game in the county exceptionally good results have been had.

The report of Field Secretary Raymond F. Caunitz of the Ulster County Fish and Game Protective Association in regard to fish received and planted during the year was very interesting. During the season 117 cans of trout were received and planted by the club. This represents 17,550 trout. There were 18 cans of bass, representing 7,200 bass, received and distributed. Ten cans of yellow perch, representing 2,000 fish, were distributed and four cans of pike perch, representing 1,600 fish. These fish were received and distributed on the following dates and in the following streams:

May 18, four cans of pike perch put in Esopus Lake.

June 4, twelve cans small mouth bass put in Binnewater Lake and at the Fording Place.

June 8, six cans large mouth bass distributed equally at Glenelg Park and below Legg's Mills in the Esopus.

July 6, seventy cans brown trout of which 10 cans were released in Little Beaverkill; 10 cans in Traver Hollow stream; 20 cans at Ideal Park; 30 cans in Esopus creek.

July 22, forty-seven cans brook trout distributed as follows: 18 cans in Mink Hollow stream, 4 cans in Little Beaverkill, 7 cans at Ulster Park; 45 cans to Sanderskill, 7 cans at Shady, 7 cans at Willow.

October 10, ten cans yellow perch divided between Esopus creek and Glenelg Park.

In this distribution the following people donated the use of trucks: Diehl's sporting goods store, Sweeney & Schonger, Elmendorf's garage, Longendyke & Martin's garage, Colonial Chevrolet, Frank Schoonmaker, Sam Craig, Harold Osterhoudt, H. Cameron, Island Dock and Lumber Company.

During the past year the association had been very actively interested in the distribution of pheasants and conducted a pheasant farm at the Felton place at Ruby where the artificial brooder method was used. This pheasant farm will again be operated this year. The association adopted a resolution of thanks to Mr. and Mrs. Felton for their work in the matter during the past year and for the successful results attained. The pheasant activities during the past year included:

February 1, one crate of 10 cock pheasants were received, six of which were liberated in the vicinity of Hurley and four in the vicinity of Legg's Mills.

On May 6, there were received 750 pheasant eggs and on May 18 there were received 488 more eggs. On June 1, fifty live chick pheasants were received and taken to the association pheasant farm on the Felton property at Ruby. June 4, an additional shipment of 250 eggs was received. June 23, forty live chicks were received and taken to the pheasant farm at Ruby. On August 3, twenty-four six week old pheasants were liberated on Lucas avenue and at Ulster Park. On August 11, fourteen cock pheasants and four hens were liberated at High Falls and Stone Ridge.

A total of 1,483 pheasant eggs were received and 52 mature birds were received from the state and 35 birds were released from the Ruby farm at Katrine, Higginsville bridge and Hurley.

This year the association will install receiving tanks for the receipt of fish. These tanks will be furnished without cost to the association by the state conservation department, and by use of these tanks better work can be done in planting fish.

The association also voted to set aside \$10 to help defray the expenses of a delegate to the National Sportsmen's Association convention in New York in 1933. At this meeting experts along all lines of fish and game are heard and the information gained will be of great benefit to the local association.

During the coming year the association expects to widen its activities and through a larger membership accomplish more.

Before adjourning a rising vote of thanks was given Miss Agnes Scott Smith, secretary-treasurer, for her assistance during the year.

**WORDS OF HIGH PRAISE FOR THE REV. JOHNSTON MYERS**

In a recent issue of the Masonic News appears an article in relation to the Rev. Dr. Johnston Myers that will be of interest to many in Kingston, where Dr. Myers was born, a son of Abram Myers of Albany avenue. After graduating from Kingston Academy he went to Rochester, N. Y., where he was graduated from the university with high honors and later from the Rochester Theological Seminary. His first pastorate was in Cincinnati, Ohio, and the remainder of his life has been spent in Chicago where he has carried on a most remarkable work for many years. The Masonic News says:

Brother Johnston Myers, D. D., pastor of the Immanuel Baptist Church, is doing a most wonderful work of true charity in these trying times. For forty-six years, thirty-eight of them with the Immanuel Church at 2320 South Michigan avenue, he has devoted himself to assisting the unfortunate who came to him for help. At the present time he is feeding seven thousand hungry people daily and expects during the coming winter to be able to aid ten thousand unfortunates each day in the same way.

During the past year, due to the great increase in the need for this service and to facilitate the operations, it has been necessary to incorporate as the Johnston Myers Free Food Supply Stations, and in addition to the church at 2320 South Michigan avenue, food stations are now maintained at 1149 West Van-Buren street and at 1434 North Wells.

One remarkable feature of the work of Brother Myers is the fact that all his work is completely dependent on the voluntary contributions of persons who know of and appreciate what he is doing. Not one cent is received from any public or other fund. It is well to remember it at this time when we are at the beginning of the drive for funds for the County Emergency Welfare Fund, and if a member cannot contribute to both, he might remember that the entire amount of any contribution sent to Brother Myers is used in feeding the destitute and nothing is deducted for salaries and overhead. It may be necessary for the other organizations to pay a \$22,000 fee and a \$7,000 salary, etc., but Dr. Myers does not use charity funds in that way. A brother Mason can do no better with any funds he may be able to spare for relief of destitution than to send them to Brother Myers.

**No More Piles**

How to End Terrible Agony Without Salves or Cutting

Thousands of Pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel.

That is the scientific truth about Piles—the real reason why salves and suppositories do not give permanent relief, why cutting does not remove the cause.

Your itching, bleeding or protruding Piles will only go when you actually remove the cause—and not one minute before. External treatments can't do this—an internal medicine should be used. HEM-ROID, the prescription of Dr. J. S. Leonard, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the almost dead parts.

HEM-ROID has such a wonderful record of success in even the most stubborn cases that McBride Drug Stores and all good druggists advise every sufferer to get a bottle of HEM-ROID Tablets today. They must end your Pile agony or money back.

(Continued from Page 1)

The report of County Judge Fredrick G. Traver relative to Children's cases was received and filed. The report of Judge Traver stated that from December 1, 1931, to December 1, 1932, there had been in Children's court 157 cases. The cases were divided as follows: 74 delinquent boys, 5 delinquent girls, 16 neglected boys, 12 neglected girls, 13 physically handicapped boys and 12 physically handicapped girls and 21 filiation proceedings. Of the cases before the court 134 were considered formal cases and 23 were boys and 32 girls. Of the 157 boys who came before the court as formal cases 71 were delinquents, 16 were neglected and 2 physically handicapped. Of the 32 girls who came before the court 8 were delinquents, 12 neglected and 12 physically handicapped. Judge Traver stated that much of the credit for the accomplishments of the Children's court during the past year was due to Mary C. Doremus, county agent for dependent children; Barbara R. Baum, Catholic Charities agent, and Chief Probation Officer Robert J. Service.

The report of the County Board of Auditors was also received and filed. This report stated that it covered a period from December 3, 1931, to December 3, 1932, and that during that time various supplies for the county offices were purchased and repairs were made and bills paid as authorized.

The report stated that warrants had been issued in payment of bills under the following subdivisions and in the following amounts:

Court House \$13,208.83. County Clerk's building \$1,327.62. Jail \$3,850.08. Van Buren Building \$1,198.13. County Clerk \$5,339.23. Superintendent of Highways \$1,369.99. County Treasurer \$999.19. County Judge \$1,156.56. County Attorney \$466.23. County Garage \$1,605.84. District Attorney \$1,587.06. Jail inmates \$1,544.78. Sheriff \$1,623.92. Supervisors' Expenses \$2,021.82. Surrogate \$700.44. Motor Vehicle Bureau \$1,327.31. Board of Elections \$231.40. Supreme Court, civil \$15.55. Children's Court \$3.00. County Court, civil \$55.00. County Court, criminal \$17.15. Supreme Court, criminal \$115.15. Tuberculosis Hospital \$555.00. Sealer of Weights and Measures \$21.70. Total warrants issued \$40,279.00.

Balance on hand December 3, 1931..... \$131.08

Appropriation made December 1932..... 40,000.00

Refunds during year..... 3,423.35

Total available for payment bills..... \$43,554.43

Total amount warrants issued..... \$40,297.00

Balance on hand December 8, 1932..... \$3,257.43

The board of auditors requested an

appropriation of \$40,297 for bills incurred during the coming year. The report signed by Supervisors J. L. Rowe, Fred Davis and Chester Lyons was received and filed. Later a resolution was offered by the committee to adopt the report and raise \$40,640 on the county. Over Supervisors Armster, Wells and George offered a resolution that there be raised the sum of \$1,200 to pay rental of Motor Vehicle Bureau offices. Over.

Resolutions from the previous session were called up and adopted. There were 33 supervisors present. On motion of Supervisor Keator seconded by Supervisor Myers the board adjourned until Friday evening at 7:30 o'clock.

### MILTON

Milton, Dec. 9.—Mrs. Helen Strong Bell of the Rural Women's Market of Milton has just returned from New York city where she exhibited and sold quilts and rugs from the Market at the Rural Exposition of Women's Arts and Industries held in the Commodore Hotel. A sale of handwork will be held by the Rural Market in the Home Bureau office in Kingston, Saturday, December 17. Beautiful Christmas gifts will be exhibited and sold.

The regular annual and monthly meeting of the Ladies' Needlecraft Society was held at the home of Mrs. Birdsall Taber Wednesday afternoon and the following officers for the coming year were elected: President, Mrs. Oliver Kent; first vice president, Mrs. A. C. Jenkins, second vice president, Mrs. Alice Crowell; treasurer, Mrs. Birdsall Taber; secretary, Mrs. William R. Ordway. Mrs. A. C. Jenkins opened the meeting by reading the second chapter of Matthew and reading a prayer by the Rev. Bowman, a former pastor of the Milton Presbyterian Church, and now a missionary in India. The secretary's report of the year was read. The treasurer reported the taking in the sum of \$208.01 during the year and clearing \$133.63. It was voted to send a Sunday basket to a shut-in. Everybody is requested to bring something for the basket on December 18. Mrs. Jenkins read an interesting article entitled "In the Night." It was decided to have Christmas supper Friday evening, December 30, in the Presbyterian Church parlor. Mrs. Edward Young's class of girls with Thomas Jenkins, Kenneth Taber and Ralph Martin will do the decorating of the church. Mrs. Birdsall Taber will be chairman of the supper committee. It was voted to send Christmas cards to the Rev. and Mrs. Paul Lindholm, a former pastor, now a missionary in China.

The annual roast chicken supper and dance will be held by St. James Church in St. James hall Thursday evening, December 15.

The Women's Missionary Society held its regular monthly meeting at the home of Mrs. Birdsall Taber Wednesday afternoon.

Mr. and Mrs. C. J. Hepworth have gone to Miami, Florida, for the winter.

Mr. and Mrs. Austin Yates are planning to spend the rest of the winter at the home of their daughter, Mrs. Earl Moore, at Red Hook.

Mr. and Mrs. Ray Shurter celebrated their wedding anniversary in Newburgh Tuesday evening.

Bamboo Tropical Plant

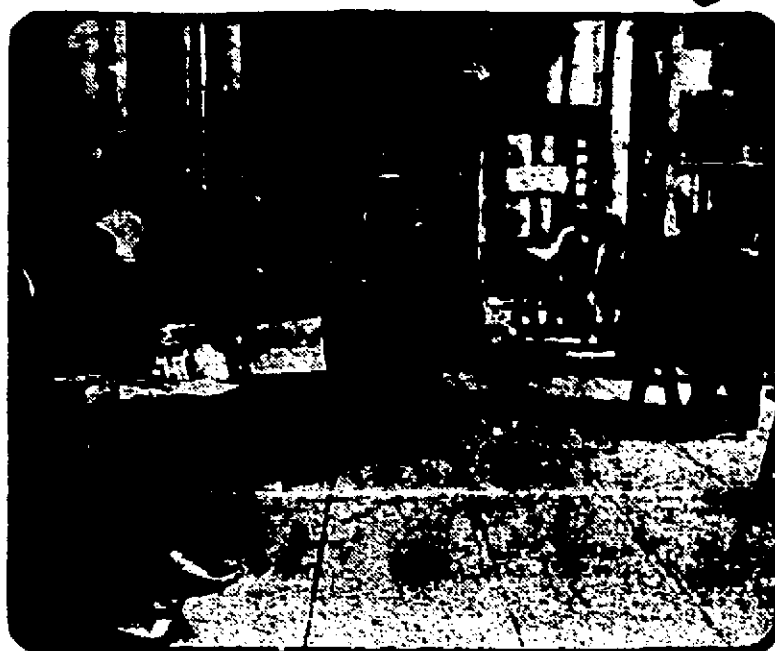

Bamboos are mid-climate plants.

None is found native in the colder temperate regions. The United States has only two native species. These occur in the southern states south of Virginia and westward to southern Missouri. They constitute our so-called cane-brakes, once more or less common but now becoming rare. Central America and South America are much richer in these beautiful plants, of which nearly 150 native species have been reported, mostly from the tropical regions. Asia, and especially China, is the richest of all regions in bamboo species. In fact, Asia may be regarded as the home of most of the valuable economic species now scattered over the earth. Nearly 500 species of bamboos have been described, and more than two-thirds of these are from Asia and adjacent islands.

Coaxing the Rain to Fall

Nearly all the uncivilized tribes of the world have some formula by which it is hoped to coax the rain from the skies in times of drought. In portions of Australia the natives employ a definite ritual of drought-breaking antics in order to induce showers of rain. The men gather round a small pond and behave like frogs, ducks, water animals and aquatic birds. They quack and croak like the animals imitated. Then they march around a group of women nearby and douse them with water and pebbles. The women raise branches and bark of trees over their heads, pretending that they are attempting to keep off the rain which is thus devoutly hoped for. The idea is that if the performers act as though the desired rain is falling it will come in due time.

# Astonishing Mexico City

Professional Letter Writers in Mexico City.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

MEXICO CITY, North America's oldest metropolis, recently hailed a new president. Almost as suddenly as Pascual Ortiz Rubio resigned, Gen. Abelardo Rodriguez became the new master of Mexico's "White House."

Mexico City is an astonishing place. Things have happened here so strange and unusual that were they not set down in authentic records they would tax all belief. It looms largest in the mind of the average American because of its supremely important diplomatic relations with Washington, growing out of the many old, unsolved questions between the two republics; but in modern, superficial aspects it is not unlike some other Latin-American capital. It has old palaces, parks, paintings, and libraries; colleges, convents, great newspapers, and broadcasting stations; likewise diplomats, soldiers, traffic jams, and fairs. It buys and sells, and makes soap, soda water, shoes, shirts, candy, cigarettes, furniture, machinery, leatherware, patent medicines, and textiles.

Sit in one of its theaters and watch a "news reel"; swim, dance, play golf or tennis at a club, or land at Balbuena field in a passenger plane from El Paso, and—except that you hear Spanish instead of Yankee chatter—you might as well be in Denver. In fact, the high top light and nearby snow peaks much resemble the scenic settings of Colorado.

But under all this standardized modernism is much more—a blend of Spanish and Aztec forces that goes back 400 years. You see signs of this, now and then, in flat, three-cornered Aztec faces moving stolidly in street crowds. Probe the mystic past and you find that certain historic events staged here swayed the destiny of our continent for centuries. Here Christianity got its first foothold in North America, when idols were turned into altars and a glittering but cruel pagan culture yielded stubbornly to European civilization.

Here America's first sheet music and first book were published. Here its first money was coined. And here, too, appeared the "Flying Mercury." Some have styled it America's "first newspaper," but more likely it was but a pamphlet on history or political discussion.

### When Cortez Came.

Imagine yourself in Mexico City that fateful day in 1519 when Cortez came. (You remember his first arrival was peaceful; the dreadful 83 days of fighting, often hand-to-hand, came on a later visit.) Montezuma, glittering with jewels and golden decorations, gorgeous in his royal robe and gold-soled sandals, comes out to meet Cortez and escort him into the island city.

Unseen till then by any white man's eye, the greatest city in North America is astir with pagan life. Could you have been there, walking and talking with Cortez and the Emperor Montezuma, you, too, would have marveled as the Spaniards did.

Down a broad, Fifth avenue-like thoroughfare Cortez and his amazed men followed the Aztec emperor. Throughout the Venice-like city ran canals crowded with thousands of busy canoes laden with passengers, fruit, fowls, flowers, grain, and fuel. Stone buildings lined both paved streets and canals, and on a great plaza stood the palace of Montezuma's father, faced by a great teocalli, or sacrificial temple. Here, in 1525, the Aztecs first saw the symbolic snake and eagle and built their first temples. Here, in 1521, was staged one of the most bloody of all combats between Aztec and Spaniard, when Spanish prisoners of war were sacrificed to the idols. Undoubtedly more people were executed here than at any other spot on earth. More than 100,000 skulls were found in one temple, and it is estimated that at least 20,000 men, women and children were sacrificed here each year. Even the Spaniards themselves, after the conquest, executed their own Castilian criminals here and exposed their heads, after the manner of the Aztecs, to the astonishment of visiting Indians. Here Iturbide was proclaimed emperor in 1822. Here the American general, Winfield Scott, raised the Stars and Stripes in 1847, and here,

twenty years later, the Emperor Maximilian bade sad farewell to his friends before he faced the firing squad. So on through the Diaz, Madero, Carranza, Obregon, Calles, and other regimes, this blood-stained area has seen Mexican history made. Palaces, pawnshops, churches, markets, and other institutions face it now, and into it run no fewer than ten thoroughfares, including the state avenues of Cinco de Mayo, Madero, and the 16 de Septiembre.

### Old Market and Little Shops.

On tramcars, on foot, and in motor cars an incredible traffic stream pours through this plaza every day, and on its west side there flourishes what is perhaps the city's oldest market. Since 1524, when city officials gave merchants permission to build porticoes to shelter goods displayed on the sidewalk in front of their stores, retail trade has gone on here. For years the public letter-writers piled their pens here, helping many lovesick Indians to "woo by mail." A few still do business.

Walking by this plaza market now, you pass under arcades whose old walls are plastered with bulletproof posters and notices of lottery drawings. Slow-moving Mexican street crowds loiter before the little shops. These sell toys, sweet meats, newspapers, cheap jewelry, and odds and ends of hardware and dishes, eyeglasses, postcards, and other trivial wares, for the city's large department stores and finest shops are out on fashionable avenues. Here, also, under these arcades, stuck away in tiny nooks, are men running little hand-printing presses for making cheap calling cards and stationery, and other indolent artisans who mend clocks, guitars, tell fortunes with canary birds, and peddle lottery tickets. And here, too, is the beggar known in Mexican slang as the pordiosero, or, literally, the "for-God-sake."

On the south side of the plaza is a section known as the Portal de las Flores. This was the old flower market in days when canals still led to the plaza and Indians landed their canoes here.

### The Valley of Mexico.

Sheer theatrical geography, that is the historic Valley of Mexico, or Anahuac. A vast, mountain-fringed oval it is, of 1,758 square miles. It tops the Mexican highlands as a great natural coliseum, a dramatic, sun-drenched setting for all the stirring events it has staged.

Though in places more than 8,000 feet above the sea, flood waters long menaced its lower areas. Lakes and marshes were once more numerous than now. To protect ancient Tenochtitlan, the Aztecs built many dikes in salty Lake Texcoco. Three great causeways connected their Venice-like city of water streets with the mainland, and a waterway for canoes and barges ran out to Lake Texcoco.

Floods were so bad, even before the Spaniards came, that the Aztecs had built dams, and as early as 1533 the Viceroy Luis de Velasco struggled with the problem.

One gigantic trench—the still famous Tajo de Nochistongo—was begun in 1607, in which task thousands of overworked Indians perished. It was first opened as a tunnel to drain the valley lakes; then, closed in a dispute, flood waters rose three feet deep in the city streets. Changed later from a tunnel into a great trench, it places 100 feet deep and 300 feet wide. The Tajo de Nochistongo remains an amazing example of what early Spaniards could do with Indian slave labor. From your train you can see this his tortic man-made mountain pass now, as you ride into Mexico City from the north.

One of the strangest aspects of Mexico City is that, though perched so high up near a continental divide, it long diked and drained itself like a seaside town in Holland. It was not till 1900, after centuries of study and work, that the city was made safe, when the great 30-mile Canal del Desagüe was completed. On it thousands of men worked for years, with teams, trams, and steam shovels. It is easily the most spectacular modern engineering feat from the Roosevelt dam to the Panama canal.

The DAIRY

GOOD CARE MAKES MONEY FOR OWNER

Comfort of Dairy Animals Important in Winter.

By C. A. SMITH, Extension Dairyman, Colorado Agricultural College—WNU Service.

Good dairy cows are as near depression proof as any class of live stock or any class of agriculture. Winter dictates winter feeding and winter care. To forget about the water heater, to overlook the bedding shed, to try to skimp through on reduced rations is to "kid yourself." Wartime prices for butterfat do not prevail, neither do wartime prices for good protein feeds.

With hogs at new low levels for 25 years, and with feeder lambs actually bringing less than a nickel a pound, the owner of a herd of good dairy cows has much to be thankful for this winter. Year by year the dairy-herd-improvement associations tell the same old story. Proper feeding combined with proper care and the use of potentially good cows have made a profit every winter for half a century. Cheap feeds will not do good cows will tell the same story next spring.

The agricultural college herd of ten registered Holsteins ranked first among small herds for a month with an average production of 42.5 pounds of butterfat and 1,253 pounds of milk per cow. The Colorado school for the deaf and blind owns a herd of 23 registered Holsteins that was first among medium sized herds with an average of 46.5 pounds of butterfat and 1,441 pounds of milk. The Myron Stratton home, Colorado Springs, owns a herd of 50 registered Holsteins that was first among large herds with an average of 50.2 pounds of butterfat and 1,179 pounds of milk.

Rations That Make for Milk-Flow Stimulation

Feeds rich in protein and green forage stimulate the milk flow. Dry, starchy feeds such as timothy hay, cereal hays and corn fodder accomplish the reverse, so the first step in the drying-off process is to change to a dry ration. Then by leaving a little milk in each quarter at every milking the milk flow will gradually be reduced. After it has been reduced to 20 or 25 pounds per day, only one milking a day is enough. When the milk flow is further decreased, the length of time between milking periods should be lengthened. When only a gallon is produced in three or four days, milkings may stop with an occasional stripping.

As soon as the drying-up process is complete the ration should be changed so that the cow will be brought back into condition. By calving time, she should be in good physical condition and in addition carry a good amount of flesh.—Dakota Farmer.

Let Cow Grind Roughage

The dairy cow has all the essential equipment needed to prepare and to digest feeds, says Prof. H. A. Hopper of the New York State College of Agriculture, in cautioning New York state dairymen against spending money trying to make poor roughage as good as the best. Grinding roughage for dairy cows has not proved profitable. More roughage may be eaten, but the expense and effort are not justified. Further, experiments show that soaking and "predigesting" fodders, which seemed to offer promise, have not proved profitable. The ordinary cutting machine, the silo and silage, do save roughage and every stalk of corn should be saved in the silo. New York state dairymen can do no better than to grow good roughages and feed them according to approved practices, Professor Hopper says.

DAIRY NOTES

The "boarder" cow is not a profitable boarder.

Missouri and Iowa are the largest poultry producing states in the Union.

A dairy cow needs to be fed liberally to get the highest test of fat, but this feed should be balanced.

The first requisite for safe milk is healthy cows free from tuberculosis, contagious abortion, and mastitis.

The roughage is of first importance and determines, to a large extent, the character of the entire ration and the feed cost of producing milk.

Trusting any bull is risky business. Most of the accidents could be avoided by having the right kind of barn and yard in which to keep the animal.

The barn should be located where it can be kept in good sanitary condition regardless of weather. Well-drained cow yards are essential.

United States grades of alfalfa best suited to dairy feeding are No. 1 extra leafy, No. 1 extra green, No. 1 alfalfa, No. 2 extra leafy, and No. 2 leafy.

In placing orders for alfalfa the use of United States hay standards by dairymen would materially assist them in obtaining the quality of hay wanted for dairy feeding.

GOOD SAUCES

A WELL-MADE sauce, smooth, nicely seasoned, will add much to any dish of meat or vegetable.

Often a good white sauce for a foundation may be used with chopped hard-cooked egg, lobster, or cooked mushrooms, parsley, or various other flavor foods, to make a most tasty sauce.

Onion Sauce.

Melt three tablespoonfuls of butter, add four tablespoonfuls of flour, and two of finely chopped onion. Cook until light brown, then add one-half cupful of good stock, stirring constantly. Mix one teaspoonful each of sugar, made mustard, and tarragon vinegar; add while the sauce is boiling.

German Sauce.

Put three tablespoonfuls of butter into a saucepan with a sprig of parsley finely chopped, add four good-sized tomatoes with seeds removed, or the equivalent of canned tomato. Season with salt and pepper, add one-half cupful of water and bring to the boiling point. Serve with roast meats.

Dutch Sauce.

Put the yolks of two eggs with four tablespoonfuls of butter, one-half cupful of water, salt and nutmeg to season, and mix thoroughly. Do not boil, but simmer until thick, over hot water. Remove from the fire, add a tablespoonful of lemon juice and serve with fish or calves head.

Horseradish Sauce.

Mix two tablespoonfuls of soft white bread with the same amount of grated horseradish, cover with two tablespoonfuls of cream, and let soak three hours. Rub through a sieve, add a teaspoonful of sugar, season with salt and add enough vinegar to make the sauce the consistency of cream. This sauce will keep several days.

Maitre d' Hotel Sauce.

Cream two tablespoonfuls of butter and add one tablespoonful of chopped parsley, half a teaspoonful of salt, the same of pepper and add slowly one tablespoonful of lemon juice. This will keep some time in a cool place. Soften before using.

Diversified Interests

Congressman "Gus" Gardner of Massachusetts used to tell of an ancient mariner who, in his boyhood, would fascinate him with stories of the sea. A favorite story was about the capture of one of the East India merchantmen owned by Gussie's saluted great-grandfather by a pirate ship. Once the boy inquired how much his great-grandfather had lost through the capture.

"I don't know, Gussie," the mariner replied. "I never could find out just how big an interest your great-grandfather had in the pirate vessel."—Kansas City Times.

Theory Given Up

The idea of the existence of a continent of Lemuria is no longer accepted. The name was given by Haeckel to a vast area assumed to exist in past ages and including the present Africa, Indian ocean and Malayan archipelago. The belief was based on the hypothesis that the existence of such a continent was necessary to explain the peculiar present distribution of the remains of Lemurs in America and Africa rendered such an hypothesis untenable.

More Cows

James was visiting in the country. One evening after dark he went with the farmer to milk the cows. He was permitted to carry the lantern.

"My grandpa has a lantern," he remarked, "but it's lots bigger than yours."

Then as an afterthought he added: "Of course he has lots more cows than you have."

Local Death Record

Ellenville, Dec. 9.—Georgianna Skinner, wife of George Skinner of Accord, died at the home of her daughter, Mrs. John Miller, Sunday, at the age of 62. Besides her husband and daughter, she is survived by one brother, Irving L. Stoddard, of Newburgh, and a niece, Mrs. Edwin L. Johnson, of Cornwall, N. Y. Mrs. Skinner was a member of the Accord Reformed Church and was an active worker in the Accord unit of the Home Bureau, being its chairman. Services were held at the Miller home Wednesday. Interment was in Montrose cemetery, Kingston.

Dr. John Sherman Fowler died at Baltimore, Maryland, on Thursday. Dr. Fowler was a recent graduate of Johns Hopkins University and had taken up the practice of medicine. He was married several weeks ago and while on his honeymoon was seized with the illness from which he failed to rally. He is survived by his wife, who was formerly Miss Elizabeth Sherrod, and his parents, Mr. and Mrs. Sherman Fowler of Alexandria, Virginia. The remains will be brought to Kingston and interment made in Montrose cemetery on the arrival of the 10:45 o'clock train on the West Shore Railroad on Monday morning.

Word has been received in Highland of the death of John Moule on November 30 at his home in Glendale, California. Mr. Moule, a former long time resident of Highland, was in his 86th year and had been a resident of Glendale for the past 12 years. He was a fruit farmer on the North road before coming to the village to reside and for many years conducted a high class home for summer guests on Milton road, now the home of Dr. Joseph Freston. Mrs. Moule died less than four years ago. Her sister, Mrs. Markie, makes her home there. One son, Fred, an optician in New Haven, Conn., survives. The interment was in Forest Lawn cemetery, Glendale, on December 1.

Lake Katrine, Dec. 9.—The funeral service for the late Miss Emma A. Brink of Lake Katrine, held at the Brink homestead on December 7, was one of the most largely attended of any ever held in this vicinity. The capacity of the old homestead was fully taxed. The many floral trib-

utes filled an entire side of the large west parlor. Services were conducted by the Rev. Stephen Elder, pastor of the Flatbush Reformed Church of which deceased had been a devoted member for many years. The Rev. J. B. Skeetee of Kingston and the Rev. A. V. S. Wallace, D. D., of Little Britain, former pastors of the Flatbush church, assisted in the service. Interment was in the family plot in Wiltwyck cemetery.

Ellenville, Dec. 9.—Miss Magdalena M. Frey, daughter of Mr. and Mrs. George Frey, died Saturday at her home on Mill street, after a long illness. Miss Frey was born in Ellenville, January 10, 1867, and has resided here all her life. She had been for many years a faithful member of the Lutheran Church in this village. Surviving her are one sister, Mrs. Charles Ahrens, one brother, George Frey, a niece, Miss Lena Frey, and a nephew, George Ahrens, all of whom lived with her at her late residence. Funeral services were held at her home Tuesday afternoon at 2 o'clock, and were conducted by the Rev. Olney E. Cook, pastor of the Lutheran Church. Interment was in the Fantinekill cemetery.

The funeral of John J. Reedy was held this morning from the family home on Hoffman street and thence to St. Joseph's Church where at 9:30 o'clock a requiem Mass was celebrated for the repose of his soul by the Rev. Louis M. Cusick. The chancel choir under the direction of Mrs. Frank Rafferty sang the responses to the mass and at its conclusion sang "Jesus, Jesus Come to Me". Bearers were Thomas Sheehan, Louis Roach, Jr., Joseph Roach, William Newman, James Van Valkenburgh and Paul Emmerle. Interment was in St. Mary's cemetery where the Rev. Edmund Burke had charge of the services at the grave. There were many beautiful floral offerings and the funeral cortege was a long one.

Ellenville, Dec. 9.—The funeral of Peter Bellman, mayor of Ellenville, who died Saturday last at his home on Tuthill avenue, was held on Tuesday morning in St. Andrew's Church, where a high Mass of requiem was offered for the repose of his soul by the Rev. Joseph A. Geiss, assisted by Father Mastaglio and Father Martin of St. Mary's Church. Interment was in Fantinekill cemetery. Besides his wife, Mr. Bellman is survived by three sons, Jacob of Ellenville, John of Brooklyn and Peter, Jr., at home, two daughters, Miss Barbara Bellman at home and Mrs. Edward Taylor of West Englewood, N. J., eight grandchildren, Peter, John, George, Harold and Marie Bellman of Ellenville, John Jr., of Brooklyn, and Ann and Edward Taylor of West Englewood, three great grandchildren, Katherine, Alice and Beatrice Bellman, two sisters, Miss Anna Bellman of Brooklyn and Mrs. Elizabeth King of Long Island.

Mrs. Henrietta Fogel Forst, wife of the late Calvin Forst, died this morning at her home No. 3 Grove street following a lengthy illness. She is survived by her daughter Mrs. William Stuart Wylie, of this city; two sons, Samuel Forst of Yonkers and Harry Forst of New York city; one brother Nathan B. Fogel of New York city,

and a sister, Mrs. Frank A. Gates of Brooklyn. She was a resident of this city for over 49 years and made a very large number of friends all of whom will be sad to learn of her death, because of her kind and loving disposition toward them. She was one who thought a great deal of her home and enjoyed the pleasant comradeship of her late husband and all of her children being satisfied with happiness and contentment she derived from it. Relatives and friends are invited to attend the funeral from her late home at No. 3 Grove street, on Monday afternoon at 2 o'clock. Interment will be made in the family plot in Wiltwyck cemetery. Mrs. Forst for years had been an active and devoted member of the Roundout Presbyterian Church.

Fish Not Hatched From Eggs

Guppy-fish are born alive instead of being hatched from eggs. Others are the Embiotocidae or surf fishes of the Pacific coast of North America; many of the Cyprinodontidae or top minnows, which are common in most fresh water streams in this country; many sharks and rays found mostly in tropical waters, and many of the small aquarium fish.

Greatness

By DOUGLAS MALLOCH

I LOOKED for greatness in a man. And found one very tall to me. For rich the soil and warm the sun. And much it had of either one. And then, amid the sterile ground, A clift within a rock I found. That little soil or summer knew. Yet in that clift there grew a tree.

I looked for greatness in a man. And found one who with gold began. And all the nation knew his name. Paid tribute to his purchased fame. And then, amid the huts and straw, I found a man who met defeat. Yet made a little, millions lost. And did not think it was success.

I looked for greatness in a man. And found a singing oriole. Upon the sage, whose crown was plaud. Yet whisper when she walks abroad. Then, by a little thoroughfare, I found a spotless mother there. Whose song, remembered by a maid. Had brought him to that Other Day. © 1932, Douglas Malloch.—WNU Service.

Cafeteria Supper from 5:30 to 7.18 Griders Turn  
To Basketball

Eighteen football men of the Kingston High school variety and second team reported for basketball in the school gym the early part of this week. Coach Kias is now earnestly working on the court game and announced Thursday that the first game of the season would not be until December 13, when the variety is scheduled to meet the Alumni.

The boys have been working out daily in the gym with Dick Whiston assisting Kias in the coaching of players. There will be a cut made tonight but the list will not be published until late in the afternoon. Kias said this morning. This will be the semi-final slice in the squad and maybe even the final; the coach has not decided.

The football boys who reported for basketball are as follows: Callum, Zacheo, Burgerin, Noble, Kelder, Dobrosky, Evers, Baltz, Van Valkenberg, Robinson, Hummel, Barth, Melchor, Van Derrze, Bowser, Murphy, Gildorf and Fertel.

Minimum Steps  
To Provide Meal

A practical demonstration of the efficiency of the model kitchen on display at Rose & Gorman's was made yesterday when Miss Elizabeth Plank of the Central Hudson Gas & Electric Corporation prepared a complete course dinner keeping an accurate account of the steps taken. She took 84 steps. It was what she called an "Oven Meal Dinner," consisting of the following menu:

Tomato Juice Cocktail  
Roast of Beef  
Steamed Potatoes  
Buttered Beets  
Frozen Cheese Salad  
Apple Crisp Pudding  
Coffee

The whole meal, with the exception of the salad and coffee, was placed in the fully insulated oven of the Magic Chef gas range used in the demonstration and cooked for 1½ hours at a constant temperature of 400 degrees, maintained by the automatic oven control with which these modern gas ranges are equipped. The frozen cheese salad was chilled in the Frigidaire while the meal was cooking by adjusting the cold control to the quick freezing position.

The demonstration, originally planned for 3 o'clock in the afternoon, had to be made in the forenoon owing to an unexpected call on Miss Plank's time. The decision to change the time was made too late to advise the public and the many women who came to the Rose & Gorman store to see the experiment were disappointed to find that it had already been done.

Miss Plank will be at Rose & Gorman's every day this week and Saturday night and will be glad to give the recipes she used to any women interested, or answer any questions that they care to ask. Saturday night will be the last opportunity Kingston women will have to see this fascinating display. Already over 8,000 have visited it and without doubt the number will exceed 10,000 by Saturday night.

Journal Seems to Make  
Point for "Sideburns"

"There is no such word as sideburns," says a learned correspondent, objecting to our use of this "verbal conglomeration" in place of the older phrases "burnsides," "sideboards" and "mutton chops." We accept, with grateful interest, his account of the genealogy of the phrase, but we deny its illegitimacy. The family tree which he gives establishes the purity of its pedigree; and even without such impressive family papers we insist that a word is a word if it is used as a word.

"Mutton chops" dates back to the early Gladstonian era, according to the compendious but somewhat outdated new English dictionary. "Sideboard" is venerable enough to have attained notice in Webster's American dictionary; but neither "burnsides" nor "sideboards" appears in either of these repositories of etymological wisdom. It may be, as our correspondent suggests, that General Burnside's tonsorial vagaries led to the substitution of his name, during the Civil war, for the earlier phrase "sideboard," and the "sideburns" is merely a confused rendering of the old general's name. But the phrase stuck; it is the current usage today; and we stoutly maintain that it is usage and not ancestry which gives meaning to a word. "Mutton chops" are seldom seen today, but the phrase is well understood; "sideboards" has gone out; "burnsides" is almost forgotten; the man in the street says and understands "sideburns." "Sideburns" they are—New York Herald Tribune.

Copperhead Not Really  
Vicious in Its Attacks

The general horror of the copperhead snake grows in part from the false belief that this snake is a vicious reptile which attacks quickly and without warning. This is only true in part. The copperhead will attack without warning, unlike its relative the rattlesnake, but it will not attack unless disturbed and then is by no means swift in its action.

The real danger from copperheads lies in the possibility of coming in contact with it when picking some object from the ground or reaching into bushes where the eye cannot follow the hand. The snake in reality is sluggish. Its usual habitat is damp areas plentifully supplied with rocks. For food, it turns chiefly to field mice.

The distribution of the copperhead is fairly general, although it is most plentiful in the New England states. In other areas it is known as the copper belly, the pilot, the red-eye and the red adder.

## On Colonial Highways

An important part of the pageantry of the highway, as described by Marion Nicholl Rawson in her book, "From Here to Yonder," a pantography of early trails and highway life, is the peddler with his stock in trade of pewter, woodenware, tinware, baskets, brooms, brushes.

And now and then we came upon a "burying lot." A single stone of two divisions commemorates the joining in death as in life of the husband and the wife, but with the husband's half higher to show his superior position. Others carry biographical sketches, lists of descendants, daguerreotypes, ambrotypes, verses. This gravestone inscription stops us. "I expected this but not so soon."

## Do It Today

Tomorrow is never an acceptable substitute for today. This is why the best intentions can usually be discounted at 30 per cent of their face value. The millennium would be crowding us hard if the good things people intend to do tomorrow were only done today.—Grit.

Glee Club Soloist  
Here At Recital

JAMES HORAN OF OSWEGO

Thirty members of the Union College Glee Club will make the trip to Kingston on Friday evening, December 16, to participate in the organ recital and concert given under the auspices of the Mtn's Club of the Fair Street Reformed Church at 8:15 o'clock at the church. The Glee Club will be under the direction of Elmer A. Tidmarsh, director of music at Union College.

There are 77 members of the Glee Club and the best 30 will appear in Kingston. In 1931 the Union College Glee Club won the New York State Intercollegiate Glee Club contest in Rochester and placed fifth in the National contest held in New York City. In 1932 the Union College Glee Club placed second in the state contest at Geneva, losing to Rochester by 2.1 points out of 300, the closest margin ever recorded in a glee club contest.

The soloist of the Union College Glee Club who will accompany the club to this city is James Horan of Oswego, second tenor, and assistant manager of the club.

Mr. Tidmarsh, well-known radio artist and the director of several singing organizations including the Mendelssohn Club of this city, will preside at the organ in addition to directing the Glee Club. Daniel T. Selko of Schenectady is assistant director of the club; Melvin B. Myers of Watertown is the manager and James Horan of Oswego and Herbert Hauser of Schenectady are assistant managers. The accompanists will be Edward B. Mates and Charles Reid, both of Schenectady.

Raoul Nadeau will be soloist of the evening. Mr. Nadeau is well known here both personally and through his radio broadcasts.

The Fuller Girls will play the Winkys at the armory tonight in a preliminary basketball game and on Saturday afternoon will play at the Hudson River State Hospital.

## Self-Concept

Utter faith in one's own opinions is the best barrier ever devised against the entrance of truth. The self-conceit thinker is always a poor thinker, no matter how fine a mind he may originally have had. He is confining himself to a pint cup, when he might use the ocean.

## Man Falls Into Lion's Den

Trying to find a way out of the Groot Schuur zoo in Capetown, South Africa, a native climbed into the lion's enclosure and fell into the pit. He was seized by a lion and lionesse, and his neck was broken by a blow from the paw of one of the beasts. He was badly mangled.

LABORATORY TESTS  
CHECK EFFICACY OF  
KELLOGG'S ALL-BRAN

Show Why This Delicious Cereal Overcomes Common Constipation

There are scientific reasons for the success of ALL-BRAN in preventing and relieving common constipation. Laboratory investigations show that it supplies "bulk" to exercise the intestines; and vitamin B to promote appetite, and help tone the intestinal tract.

These two important food-elements aid regular habits, and help do away with the headaches, loss of appetite and energy, so often the result of constipation.

The "bulk" in ALL-BRAN is mild in action—much like that of lettuce. Inside the body, it forms a soft mass, which gently clears the intestines of wastes.

Isn't this pleasant "cereal way" far more healthful than using pills and drugs—so often habit-forming!

Just eat two tablespoonsful of Kellogg's daily—enough for most types of constipation. If not relieved this way, see your doctor.

Besides, ALL-BRAN brings your body twice as much blood-building iron as an equal amount by weight of beef liver.

Special cooking processes make ALL-BRAN finer, softer, more palatable. Equally tasty as a cereal, or used in cooking. Recipes on the red-and-green package. Sold by all grocers. Made by Kellogg in Battle Creek.

VALVES--  
the Heart of a  
Motor

MAN is as old as his heart—valves are the HEART OF A MOTOR—and no motor is better than its valves. The valves of your motor operate 800 times per minute—18 times per second—at only 80 miles per hour. Valve spring tension varies from ten to forty pounds.

VALVE GRINDING COMPOUND, the most violent abrasive known, has been used extensively in the past (and is still being used in some service shops) in what is commonly known as "grinding valves." This compound is used by rubbing it between the valve and the valve seat in the motor block. It finds its way into the softer metal of the motor block and the majority of it remains there! It cannot possibly be washed out but "wears its way out" into other moving parts of the motor.

## THINK OF IT!

These hard compound grits which remain imbedded into the motor block have a cutting effect upon the valve head—they cut a deep ring around the valve face and destroy contacting surfaces. Most of the compression is then lost—the motor lumps—the real power disappears. In addition, the gasoline mileage decreases and the real pleasure of driving is gone.

Worse yet, automotive mechanical research has proven conclusively that an abrasive agent cannot correct imbedded valve contact surfaces. Any advantage to the motor then was in removing carbon and in the "tune-up."

## CHOOSE CORRECT METHOD

We do not "grind valves" but correct valve trouble with the new KWIK-WAY SYSTEM—a modern, scientific system of measured accuracy. Scientific correction of valve contact surfaces builds into your motor a power heretofore unobtainable—renews motor life—brings back the pep—smooths out the hills!

## DON'T GUESS

Come in—let us show you how we measure the accuracy of a valve seat after each operation. Don't permit guess-work or damage by obsolete methods in the work on your car. PROTECT YOUR MOTOR CAR INVESTMENT!

## Financial and Commercial

New York, Dec. 9 (AP).—The stock market remained quietest today, readily absorbing occasional ripples of selling, but failing to attract anything resembling active buying.

Sentiment in brokerage quarters has grown considerably more cheerful in the past few days, but more bullish than inclined traders acknowledge that they are not sure where an upward impetus will come from, and that corporate earnings are holding close to the low levels of last summer.

## PORT EWEN.

Port Ewen, Dec. 9.—Parents and friends of the children of Anderson School, No. 1, are invited to attend the meeting in the school at 7:30 Monday evening, when a Parent-Teacher Association will be organized. A speaker from Kingston will be present.

The Ever Ready Club will be entertained Monday evening, December 12, at the home of Mrs. Raymond Howe. The annual Christmas party exchange of Christmas gifts will be enjoyed at this meeting.

Mrs. Charles Hungerford's beauty shop on Salem street is closed for a few days on account of Mrs. Hungerford being ill in the hospital.

Mr. and Mrs. Nicita and family have moved to New York city. Mr. Nicita formerly conducted a shoe-maker shop in the Lampman building on Broadway.

Mrs. Eddy, of Dundee, N. Y., mother of Mrs. Frank White, is spending the winter with Mr. and Mrs. White on Hasbrouck street.

Nap Fabrics Are Seen Everywhere This Year.

Velvet is everywhere this year. Paris is going in heavily for all sorts of nap fabrics.

There are crepe velvets of varied thicknesses—some soft and pliable as chiffon, some heavy and thick as woolens. There are fur velvets—those which look like ermine, like caracul, like badger.

There are soft silk velvets made into gowns whose skirts fall in soft voluminous folds, and heavy cotton-back velvet dresses with full flaring skirts whose hems cover spaces each a yard and a half in diameter.

Velvet is used only for dresses and coats, for evening wraps and gowns, but for daytime suits, for pajamas, for lounging robes and negligees, for cocktail suits, for gloves and shoes, for hats—in fact, for practically everything modern women wear.

Velvet Picture Hat.

The wide brimmed picture hat of black velvet is the best thing that has come along for many a day, if you are the type to wear any big hat at all.

## Barter Exchange to Open in Woodstock

A meeting was held at the house of Harry Leith-Ross, a few days ago, to discuss the forming of a barter exchange in the village of Woodstock. The idea was presented to the Woodstock Community Association which has decided to sponsor it and beginning December 17 Mrs. Sonia J. Bronson will be in charge at the Community House from 2 to 5, Saturday afternoons only to give information, receive lists of things offered for exchange, and lists of things needed. Barter is now being carried on in many places with much success and it is hoped that residents of Woodstock and the surrounding neighborhood will find a barter exchange of much benefit and assistance in these times when cash is so scarce.

For further information telephone Woodstock 5-F-31, or the secretary at the Woodstock Community House will be glad to answer questions. Don't hesitate! Anything you have that is exchangeable in the way of food, clothes, furniture, household equipment, or anything that's within the range of human use, say sponsors.

## PLAN BASKETBALL TEAM FOR WEST SHOKAN

West Shokan, Dec. 8.—A basketball team is expected to be organized here as there is plenty of good material. The team according to the sport enthusiasts could be composed of the following veterans of many court battles: Charles Dwyer, Joe and Ed Winkler, L. Davis, E. ## Several Cases in Supreme Court

In supreme court Thursday the reglement action brought by Commercial Credit Corporation against Rudolph Hoberberger and another was settled. An action brought by Joan Frank and Constantine Frank against Terminal Car Corporation, an action for personal injuries, resulted in a verdict for Joan Frank in the sum of \$2,200 and for Constantine Frank by guardian, of \$2,000. F. W. Brooks appeared for plaintiff and Edward C. Sobat was attorney of record for defendant.

No. 23, Sam Levine against Helen M. Scheible and another, a negligence action, was announced as settled. F. W. Brooks for plaintiff and Nadai, Jones & Mowton for defendant.

A jury was taken in an action on

contract of insurance brought by Jack Miller against Maryland Casualty Company and at the opening of court this morning it was announced that the matter had been settled during the recess. Manuel Dittenheimer was attorney for plaintiff and Brinkley & Elsworth for defendant.

A jury was taken in No. 465, Ira D. Beatty against Etta Resnick and Jack Resnick, a negligence action growing out of an accident south of Highland on route 9-W on June 14, last, when the car of Mr. Beatty was damaged by the car of defendant, Etta Resnick, and driven by her son, Jack. There was no answer filed in the case and A. J. Cook appeared for plaintiff and took an inquest. Mr. Beatty testified to damage amounting to \$55.40 and loss of use of his car for 11 days. He said the value of that service was \$5 a day. Judge Loughran directed the jury to bring in a verdict for plaintiff and submitted the question as to the amount of such verdict to the jury. The jury later came in with a verdict for plaintiff in the sum of \$110.40, the

full amount sued for. Court recessed until 2 o'clock Monday afternoon.

### POUGHKEEPSIE POLICE CHIEF AND LIEUTENANTS RESIGN.

Police Chief William J. Sheedy and Lieutenant William T. Kimlin and Chester V. Phelps, of the Poughkeepsie police force, submitted their resignations effective December 31, to the board of police commissioners of that city on Thursday evening.

### Briefly Told

Happiness is not like a large and beautiful gem—but it consists of a series of smaller and commoner gems, grouped and set together, forming a pleasing and graceful whole.

### Old Custom

"I had hardly got married before war broke out," writes a correspondent. It is often like that!—London Tit-Bits.

## Ulster Medical Society Meeting

A meeting of The Medical Society of the County of Ulster was held Tuesday evening, December 6, in the Governor Clinton Hotel. This meeting was a combined business and social meeting arranged to revive the old time custom of a "Ladies' Night" once a year after a generous banquet. At 8:30 the doctors held a business meeting while the ladies enjoyed bridge.

At the business session it was voted that the treasurer purchase \$100 worth of Christmas seals. It was also voted that the Medical Society donate \$25 to the City Voluntary Emergency Relief Committee.

Later in the evening the doctors and their wives enjoyed dancing with music furnished by Zucca's orchestra.

## Chocolate-LaBarba May Revive Feather Class

By EDWARD J. NEIL

New York, Dec. 9 (AP)—Kid Chocolate, a slim negro boy, dazzling in his suit, and a chunky, curly-headed pugger from California, Fidel LaBarba, can bring back to the featherweight division tonight some of the glamor and thrill a great fighting weight has been losing steadily with the years.

They meet for 15 rounds in Madison Square Garden, with Chocolate's claim to the featherweight championship, granted by the New York State Athletic Commission, at stake.

With these two rests much of whatever chance the 125-pound class has at the moment of regaining the prestige the division knew when it was ruled by such men as "Ike" Frazier, the "Belted Spider" Terry McGovern, Abe Attell, and the prototype of all negro warriors since his day, George Dixon, the "Little Chocolate."

**History of 125-Pounders**  
The featherweight class has taken a weight and toppled far since 1890, a skinny Scottish lad, won recognition as the first champion in the '90's. With less fuss than preliminary boy makes today over a four-round emergency appearance, the "Spider" came to America and fought Frank Murphy, an Englishman, 30 rounds to a draw in defense of his honors.

The title passed in 1899 to Billy Murphy, an Australian, who quickly outgrew the weight limit that stood then at 118 pounds. He forfeited, and along came George Dixon, the same year, to fight Nuncie Wallace, in London ring, for the championship and a side bet of \$2,000.

**Two Great Battles**  
Dixon won in 18 rounds and signed for nine years, a marvelous feat of Chocolate fighting machinery, killing all comers, at any weight, for any amount of money, and none at all if it wasn't available.

Then a human torpedo, as great in the way as Dixon, and as opposite in his fighting style, "Terrible Terry" McGovern, caught the negro master on the down grade in 1899 and knocked him out in eight rounds.

But McGovern, great as he was, met an early master. An unknown from Denver, Young Corbett, fresh as the morning dew, caught Terry at Hartford, Conn., in 1901 and knocked the faithful with a two-round knockout. They fought at 126 pounds, eight above the limit, and Corbett never claimed the title.

Both quit the featherweight ranks. Abe Attell fought "Brooklyn Bommy" Sullivan for the championship in 1904 with the weight limit raised to 125 pounds. Sullivan won the first time on a foul, but Attell scored a four-round knockout in their second battle.

When came a glamorous line of champions, Johnny Kilbane, conqueror of Attell in 20 rounds in 1912; Eugene Cigrang, lion-hearted Frenchman with the war torn face who knocked out Kilbane in six rounds at the Polo Grounds in 1923; and last the crown only six months later to bounding Johnny Dundee.

Seven times fell upon the class with Dundee's retirement in 1925. A tournament crowned Louis Kid Kaplan champion in 1927, another made Benny Bass his successor, and in 1928 Tony Canzoneri, present lightweight king, whipped Bas. Andre Eubank beat Canzoneri, Bat Battalino defeated Routis, and excess weight forced Battalino out a year ago.

**"Kidd" Favored**  
Now New York recognizes Chocolate as champion, the National Boxing Association claims Tommy Paul, and California hails Baby Arizmendi as the titleholder.

So Chocolate and LaBarba, the latter a former flyweight champion, can settle only one-third of the controversy. Odds favor Chocolate slightly. Each has won a ten-round decision in two previous meetings.

**EAST WON MATCH IN MILLARD TOURNEY**

Winning his first game in three nights in the Kaschik billiard tournament, Bob East of Stone Ridge defeated Clifton Quick of this city last night by a 100 to 57 score. East got off to an early lead with two of 14 and one of 11 and was in danger. Quick's best effort was a run of 9.

Tonight Julius Tellier will meet Richard Palen.

## Till's Field Wins For Bigelow Over Morgan Repealers

A field shot by the elongated Vic Till of the Bigelows spelled defeat for the Morgan Repealers at Malden Friday night in the last couple minutes of a game which was packed with thrills for the large turnout of spectators that witnessed it. Final tally of the contest, which looked like a win for the Morgans up until the waning stages of the closing quarter, was 39-37.

Leading for three quarters, the Repealers succumbed to the attack of the Malden bowlers in the last frame, permitting them to cut in on the lead so that they evened the standing with only a few minutes to go. Till, who entered the game for Schackett in the last quarter, sunk the field that put the home boys out in front by two points just as the contest ended.

Jimmy Merritt, eagle-eye forward of the Repealers caxed the ball for 16 points, highest individual tally of the game. His mate in the fore court, Norm Niles, made five and then had to leave the cage war on account of personal fouls. Joe Hoffman was next to Merritt with 12 points. Schackett starred for Malden with 10.

Tonight the Repealers play on their home court, White Eagle Hall, where they will face the Sausages Exchange Five in a contest expected to draw a capacity crowd. There will be a preliminary.

Saturday night the Repealers go to Rosendale for their second match of the season with the Firemen's team of that village over which they hold a victory.

## Maroon Varsity Receive Letters

This morning in regular assembly of the students of Kingston High School, Ed Luby, president of the school Athletic Association, gave out a varsity and second team letters to the boys who earned them in the past season on the gridiron for the Maroon and White.

Thirteen players received their

varsity "K" and Eric Schellenberger, manager, was also awarded a letter for his fine work of managing the team throughout the fall. Luby had a little snack of something about each varsity man and previous to giving his letter, he would tell the students about it. Luby had a fine collection of things and his classmates really enjoyed hearing them.

Those who received varsity letters were: Captain Jim Cullum, Kelder, Canfield, Whitaker, Burgevin, Murdoch, F. Myers, C. Duffy, Levy, Cap-

tain-Alert Charles Raible, Zachero, Every and Debracko.

The second team awards are as follows: Ralph Barth, Eymann, Buddenhagen, Charles A. Davis, H. L. Davis, Every, Forst, Finley, Gilday, Gilday, Hummel, Hyatt, Fitzgerald, Murphy, Nelson, G. Ryan, J. Tiano, M. Tiano, Tomshaw, VanDerzee and VanValkenberg.

One Point of View  
The greatest discovery a man can make is how to escape easy and late.

# A PATH TO PARADISE

by Connelly  
DAWSON

**SYNOPSIS:** Santa escapes from the land in which Dicky, her first husband, has held her prisoner. Dicky, however, has well founded reasons for his behavior. When Dicky is released, he is told that Santa is not his wife. When Santa is released, she is told that Dicky is not her husband. When Santa is released, she is told that Dicky is not her husband.

## Chapter 47

### THE WOLF SMILES

The day following Santa had with-  
in four walls. Each time the tele-  
phone talked her heart quickened.  
Like a beleaguered city, she watch-  
ed for Clive's return. Never had he  
seemed so precious.

On the second day she ventured  
out but took her maid with her.  
The third day she went out unac-  
companied. Gradually her alarm  
subsided.

The fourth day she had a fling  
at Bloomburg's, that extraordinary  
institution where grand duchesses  
and bootleggers' wives elbowed  
each other in their anxiety to be  
served by the redoubtable Bloom-  
berg himself. As Bloomburg left her  
she raised the curtain to return to  
the show room and the endless pa-  
rade of manikins in evening-gowns,  
negligees, pyjamas. On a couch be-  
tween herself and the elevator, har-  
rying escape, sat Dicky. He smiled  
like the wolf in Little Red Riding  
Hood.

"Sorry to disappoint you."

Touching her arm affectionately,  
he conducted her to the elevator.  
The clients of Bloomburg doubtless  
imagined that they were witnessing  
love's young dream.

In Fifth Avenue she shook her-  
self free.

"What's your game?"

"I can't live without you."

"But how did you know that I  
would be at Bloomburg's?"

"Rang up and discovered."

They walked a block. She broke  
the silence.

"What do you imagine you gain  
by persecuting me?"

"That you'll fall for my charm."

"How do you mean fall?"

"That you'll marry me."

She took her time in answering.  
"Dicky, please believe me. The  
only fowers you'll ever receive from  
me will be in a wreath at your fu-  
neral."

"I'll rise from my grave," he re-  
sponded lightly.

"But what do you want?"

"That you'll lunch with me."

To lunch with him where they  
could be seen only by a few people  
seemed preferable to courting the  
publicity of the streets. He selected  
a high-class speak-easy in the East  
Fifties. Seated elbow to elbow on a  
red plush couch, a table planning  
them to the wall, she tackled him.

"Insult me all you like. You'll  
never get another chance."

"If we quarrel, we shall attract  
attention. That was why I brought  
you. Act as though we were a pair  
of pals, like any of these other cou-  
ples. Take a peep in that mirror op-  
posite. We don't look so mon-  
strous."

"I look like a young niece on a  
spree with her hard-loued uncle."

"That's more in your old style."

You've always laughed at my ex-  
pression. Lord, what will I do if the  
day ever dawns when I'm forbidden  
to hear you laugh!"

A pair of cocktails had been  
placed before them. She had in-  
tended to refuse hers. Changing her  
mind, she toasted him.

"Here's to our parting."

"May it be a false alarm," he  
jested.

"It isn't. Don't kid yourself."

His face collapsed like a child's.  
"I'd commit suicide if I believed  
you were through with me."

"But Dicky, that's not news to  
you. I've been through with you for  
ages."

"May be. You haven't acted like  
it."

He called for another cocktail.  
She prayed that he might call for  
twenty. Meanwhile she argued.

"May I speak frankly for your  
own good?" he questioned.

"Can you be more rude than you  
have been?" she challenged.

He defeated her by laughing in  
his most winning manner.

"Lord bless me! It's like old days  
in Chicago to sit here fighting."

"You were about to harangue me  
for my own good," she jugged him.

"Don't know that I dare. If I of-  
fend you, you'll scold."

"Soup's too nice," she mumbled.

"Then claiming the privilege of  
an ex-husband, I'll dispense with  
draperies. After we'd become en-  
gaged you revoked for five minutes  
in Clive's favor. After we were mar-  
ried you revoked in his favor more

discreetly. You condemn me for  
my morals; when it comes to a  
show-down, I'm essentially the more  
faithful. The choice between Clive  
and myself has been reopened."

"By whom?" She helped herself  
to butter.

"By you when you left your an-  
nointed sheep, meaning Clive, in the  
wilderness to come in search of this  
little lost lamb. Dig down to fun-  
damentals. The trouble with our  
marriage was money."

"The trouble with our marriage,"  
she corrected swiftly, "was that you  
lured an innocent girl to share your  
placidity of a past and spazzed with  
her because she refused to sink to  
your level."

"If I'd possessed money, you'd  
have stuck with me," he insisted.

"I might have." She glanced  
around the room. "Your willingness  
to sponge on me didn't increase my  
respect for you."

"There's no more danger of my  
sponging on you." His chest swelled  
a trifle. "I'm a rich man."

"Not by your own efforts."

(Golly, he's pathetic, she thought.)  
"Does it matter by whose efforts?"

he urged. "But we were speaking  
about Clive. Your only chance of  
holding him is to present him with  
squalling babies."

She turned.

"And if I were to kick Clive to  
the devil, you'd give me romance?"

she suggested.

"Let's." He pinched her arm.

"Eat your asparagus," she  
squiggled him.

He put down his wine glass,  
empty.

"You have yet to persuade me  
that my attentions are unwelcome.  
As to what you have said about the  
life we led, that's granted. But  
since then you've revealed qualities  
which you kept hidden while we  
were man and wife. I've seen you  
tender, considerate, patient. There's  
no woman can drag the best out of  
me the way you can, Santa."

"The other day you called me a  
faker."

"You are, but not consciously," he  
pleaded. "You don't appreciate the  
maddening effect of your sym-  
pathy." He refilled his glass. "Come  
across. If I've discovered new qual-  
ities in you, haven't you discovered  
in me more attractive qualities than  
you'd suspected?"

His expression was tense.

"All I've discovered, Dicky, are  
the self-pity and evasions of a small,  
bad boy."

Her answer whipped him into  
pride.

"Heavens, how you women can  
be. During the past months you've  
devoted more of your waking hours  
to me than to the man who figures  
as your husband."

"She felt that she had mastered  
the situation."

"Misplaced kindness."

He upset her with a question.  
"Have you told him about our  
taxi-ride?"

Lunch was ended. The restaurant  
was emptying. Soon they would be  
the last guests left. She began but-  
toning her gloves.

"I haven't. I didn't want to dis-  
tress him."

"Lying again, Santa. You didn't  
want to distress yourself. You didn't  
trust him enough to tell him."

In a flash she was on her feet and  
had placed the table between them.

"I trust him absolutely."

He made no attempt to delay her.  
Refilling his glass, he looked up  
usually.

"You're mias. You haven't tell  
Clive that we're still meeting. I  
shall wear you down."

She stamped her foot.

He raised his glass.

"Here's to our reunion."

Having reached the door, she  
hesitated and came back.

"I've endured you; now I loathe  
you."

He spoke without raising his  
eyes.

"You'll need me. Hatred is akin  
to love."

As Santa scurried through chilly  
February streets, she felt little and  
threatened. She placed together  
the word-portrait which Dicky had  
presented her of herself. She wasn't  
like that at all she protested; yet  
all her conduct fitted perfectly to  
construct such a portrait. Even  
Clive, when he was angry, had been  
of the same opinion as Dicky. After-  
wards he'd gone the limit in twist-  
ing facts to her advantage. It had  
sounded grand and comforting. But  
what did he really think of her?

(Copyright 1932-1933, Connelly Dawson)

It is Clive who, tomorrow, unex-  
pectedly makes it impossible for  
Santa to tell about Dicky's persecu-  
tions.

Looking Toward the  
Holidays

BOTH WINE AND  
WOOL

New York—At the moment, New  
York shop windows seem to be play-  
ing up citrons, chartreuse, and green-  
ish yellows, including lettuce, lime  
and love birds. These shades are par-  
ticularly happy in novelty materials,  
either rough crepes or woolsens and  
are used very often with black, the  
black being the incidental accessory  
touch—as for instance, in the coat,  
hat, gloves or maybe in the jewelry  
worn.

Speaking of jewelry, there is some-  
thing very good-looking about the  
pieces carved from semi-precious  
stones—jades and carnelians among  
them—and something very chic about  
the metal pieces without stones.  
Flexible metal belts give a smart ac-  
cent to the waistline and are a gift  
suggestion one may be glad to know  
about.

Powder cases—compacts, if you  
like—are another means of introduc-  
ing that touch of black which women  
feel is so chic with almost any sort  
of costume. The very large pancake  
compacts are popular in enamel,  
whether initialed or not.

Speaking of initials, there is a new  
felt bag with pendant initials, block  
letters of imposing dimensions, swing-  
ing from the bag, one side of which  
is smartly cut off in a sort of step-  
like formation. From each of these  
two levels, an initial is swung. Felt  
bags are particularly nice because  
they may be had in an assortment to  
match one's various accessories and  
hats. The ones with the swinging  
initials are bound to appeal to the  
initial hounds, who will cheer yet an-  
other way of identifying and  
decorating at the same time.

They do say that some of the new  
bags coming have handles, so that  
they may again be suspended from  
the wrist. But this does not seem  
just the right moment to let one's  
purses get out of hand. Besides  
which, the wrists of the fashionable  
woman are just about broken under  
a weight of bracelets, so why com-  
plicate matters by hanging the bag  
there too!

A slightly grayish hyacinth blue is  
selected by Mrs. Franklin D. Roose-  
velt, wife of the President-elect, as  
her favorite color. It is understood

that she has authorized this shade to  
be known as "Roosevelt Blue".  
In case you may have forgotten,  
or never knew it, "Alice blue" was  
named for Alice Roosevelt, now Mrs.  
Longworth, who gave official per-  
mission to name this blue—her favorite  
color—for her. Hyacinth blue,  
favored by our incoming First Lady,  
is an entirely different shade.

NEW PALFZ

New Palfr, Dec. 9—Mr. and Mrs.  
Abram E. Jansen called on friends  
in Hurley last week.

The second Epworth League meet-  
ing of the week was held on Tuesday  
night in the Methodist Church.  
Three members of the Epworth  
League led the opening exercises.  
Miss Margaret McCormick gave out  
the hymns, and all sang "Come  
Humble Sinner" and "The Church's  
One Foundation." Prayer, Miss  
Joyce Mauterstock. Scripture, Mo-  
tati's Translation, Romans, 12 chap-  
ter, by Miss Elaine Kniffen. Hymn,  
"Jesus the Very Thought of Thee."  
Miss Joyce Mauterstock introduced  
the evening's speaker, the Rev.  
Howard D. McGrath, of Beacon, who  
gave a fine address. Everyone pres-  
ent agreed that the Rev. Mr. Mc-  
Grath is all that the young people of  
the Epworth League and others have  
praised him to be. His talk which  
was very helpful, he closed with  
prayer. Hymn, "Courage Brother Do  
Not Stumble." Miss Blanche Guinac  
was pianist. The meeting closed  
with the benediction by the Rev. Mr.  
McGrath.

Janet Hopkins, a normal student,  
spent the week-end with Elizabeth  
Wood in Hyde Park.

John McKinley is spending some  
time with his daughter, Mrs. Frank  
Elliott, and family.

## Chicks, Pups and Sergeant Jim

Sergeant James Cunningham of the State Troopers is a chicken fancier and at his home in Fish Creek, town of Saugerties, he has a number of high bred Rhode Island Reds. Among this flock were three choice roosters. Several days ago the sergeant missed his three red roosters and since it was near Thanksgiving it gave him no little worry. An investigation was made as to the whereabouts of the missing blooded roosters but nothing was learned of them.

After an absence of several days Sergeant Jim was surprised one morning to go out to his flock and find the three red roosters calmly strutting about the pen apparently none the worse for their disappearance. As he stood admiring the handsome birds he suddenly discovered an addition to the flock. He rubbed his eyes and looked again. It was true. In the pen with the roosters were two playful little police puppies. Jim was glad to receive back his Rhode Island Red roosters but the question which is puzzling him yet is how come the dogs. The question is whether the chickens had pups or did the pups have chickens.
